ANNOUNCER: "These days a PENNY is a pretty insignificant coin. Yet, spent for electricity, it will light a hundred-watt bulb more than three hours—wash in tubs of clothes—vacuum-clean six large rugs—or toast 35 slices of bread.

"Penny for penny, dollar for dollar, electricity is STILL one of the biggest BARGAINS in your family budget—even though the costs of SUPPLYING it have risen considerably over the years. Yet, despite the rising costs of supplying your electric service, the price to you has been KEPT LOW! This has been the result of the wider use of electricity, and of the efficient methods of business-managed electric light and power companies like Carolina Power & Light Company.

"Today, the average American family gets twice as much electricity for its money as it did twenty years ago—but the average family served by Carolina Power & Light Company actually gets THREE TIMES as much!"

Here's a bit of GOOD NEWS

EXTENSION TELEPHONES ARE BACK AGAIN

Extension telephones can now be installed in homes without delay. You need only to call the telephone Business Office. Orders for main telephone service are sometimes delayed because of shortages of central office and other equipment, which are not involved in the installation of extension telephones. That's why you can now get extension telephones, though there may still be delays in furnishing main telephone service.

So there is no need to wait longer to enjoy the greater comfort, protection and convenience that an extension telephone by the bed or other easy-to-get-to place will afford. Call the telephone Business Office today.

throughout the city and territory. Rates are most reasonable. Mr. White has built...
