

Wakelon Cafeteria Now a Clean, Modern Lunchroom

Thousands of Dollars Invested to Provide Best in School Meals

The Wakelon School lunchroom, decked out in a lovely green and white color scheme and decorated with pictures drawn and painted by the students, is now a bright and cheery place where the children can enjoy their meals. It is a great contrast to the bench-lined, hard-to-clean room which was used a few years ago.

Begun by Roy Lowry two years, the modernization of the school lunch room reached a climax this fall when Principal Fred Smith installed thousands of dollars worth of new equipment.

So complete is the equipment and so well-planned is the 1948 layout that State Health Inspector Shaw could offer no suggestions on how to improve the lunchroom or kitchen. "Wakelon has," Mr. Shaw declared "the only lunchroom I have ever visited where I could make that statement."

New equipment in the kitchen includes two stainless steel three-compartment sinks, equipped with gas heat under the rinsing compartment and valued at over \$1,000; a new electric potato peeler; a \$400 four-speed electric mixer; an additional 35 cubic foot refrigerator; and a gas-heated steam table.

Makes Work Easier

This equipment makes easier the work of Mrs. Dewey Massey and her capable staff, which includes Mrs. Leona Fowler, Mrs. L. A. Baker, Mrs. Eugene Bailey, Mrs. Harold Eddins, Mrs. Russel Williams, and Mrs. Grover Pearce. From 11:00 when the first graders file in to eat until 12:45 when the last of the high schoolers have their dinners, the ladies serve an average of 575 meals daily.

For 20 cents, a school child enjoys a nourishing and delicious meal which always includes at least two ounces of meat and plenty of vegetables. For instance, on Wednesday of this week, they were served roast pork, turnip greens, irish potatoes, apple sauce, bread, and a half pint of milk.

The students file into the lunch room to the hand washer, where everyone washes their hands. After they dry their hands on paper towels which are discarded in convenient waste boxes, they go around the lunchroom to the serving counter. There their food, steaming hot, is served. Four students sit at a table, which is plastic covered and spotlessly clean.

Students who bring their own lunches from home eat in the lunchroom, and if they desire, they can purchase a six cent bottle of milk for four cents to drink with their meal. On days when orange juice is served with the meal, it is provided free to those who bring lunches prepared at home.

Mr. Smith stated that he pon-

THEY'LL GET STUCK, TOO

The two boys standing with the models of their cars of the future above cars of bygone days, Tom Goad, left, of Birmingham, Mich., and Ronald Johnson of Portland, Oregon, received \$4,000 each for their designs. They are mighty pretty, these cars of the future, but they wouldn't stand up a bit better than a tin lizzie on these roads in

the Zebulon area, which are really in a mess right now. Wilson Braswell and the other mail carriers are singing the blues, and school bus drivers are mighty unhappy. Maybe the new administration will hold up construction of superhighways long enough to get a few of our combination washboard-quick-sand roads paved.

dered a long time before he finally decided on how best to enlarge and improve the lunch room. He commended Prof. R. F. Lowry for the work he had done, saying it was a good start.

A pantry at one end of the kitchen was torn out during the summer, and this space was used for the new sinks. At the other end of the kitchen, in the space where a single galvanized sink stood last year, are the potato peeler, the mixer, and a refrigerator.

From Carolina Hotel

The mixer, incidentally, was purchased from the Carolina Hotel by Mr. Smith. Although it cost \$400 when new, and it is in excellent condition now, the cost to the lunchroom was only \$75. By smooth talking, the school principal persuaded R. I. Lee to scale his price down from the \$200 originally asked for the machine. It is equipped with a three-phase electric motor, which required new wiring into the lunchroom. Carolina Power & Light Company made the wiring connections as soon as Ralph Talton, local manager, was told what was wanted, and the school head described the local office as "the most cooperative anybody will find anywhere."

The lunchroom is kept fresh and clean by constant scouring and by a yearly painting. The colors used are chosen in shades which will make the room a pleasant place to eat.

"We are proud of our lunchroom," said Mr. Smith, "and we extend a cordial invitation to patrons of the school to pay it a visit."

Zebulon Town Board Discusses Sanitation

(Continued from Page 1) police. Chief Hopkins was directed to warn the offender, and if improvement in the operation of his place of business is not made immediately, his beer license will be revoked.

Present at the meeting were Mayor R. H. Bridgers, Town Clerk Willie B. Hopkins, and Commissioners R. Vance Brown, Howard Beck, Norman Screws, Bob Sawyer and Barrie Davis.

REMEMBER?

Remember when a bare bulb like this was the last word in lighting? That's when you started calling your electric bill a "light" bill.

Then electricity began to take on more chores. It learned to cook and sew and clean, to wash and iron, preserve food, entertain the family—in general, to make life healthier and happier and easier all around. Lighting became only a fraction of that job.

Naturally, you came to depend on electric service for more and more jobs—until now you couldn't imagine living without electricity!

Today your electric bill is just about the smallest item in your family expenses—yet what else does so much, for so little?

Yes, it's still a "light" bill—it lightens your chores, your home, and the business of balancing your budget!

Hear famous stars in radio's great new dramatic show—THE ELECTRIC THEATRE . . . CBS, Sundays, 9 P.M. EST.

CAROLINA POWER & LIGHT CO.

Clean Up Time Is Here Again
 Laying houses to be cleaned and sprayed with CHEK-R-FECT.
 Pullets to be wormed and checked for lice and mites.
 Hog feeding time is Here
 Purina hog chow to be fed with grain, or hog Fatena a complete feed.
 We have it. Come in to see us.
