WHICH WOULD YOU USE???

And the right key to strong bones and sound teeth is

Vitamin D Homogenized Milk

RIGHT KIND OF FOOD

Milk supplies some of every food factor you need each day, including calcium and phosphorus which Vitamin D forms into strong bones and teeth. There's more downright goodness and nutrition at lower cost, packed into two glasses of our Vitamin D Homogenized Milk than in a pound of any other food you can buy.

RIGHT FLAVOR APPEAL

Because this better food is homogenized (cream spread evenly all through the milk) you'll find everyone in the family enjoying milk more. It's so extra-smooth, so extra-delicious, you'll wonder why you never tried it before. In coffee, on cereals or by itself, this is the best milk you've ever tasted.
