

**LIZARD LICK HAPPENINGS**

We feel sure as the busy time with tobacco approaches that our congregation at church will grow smaller but we do hope that every one will make a sacrifice and try to come. You need your church and your church needs you.

Our Sunday School will continue on through the summer at 10:00 and preaching at 11:00 a.m. The Training Union at 8:00 p.m. every Sunday night at Hephzibah.

We are very happy that most of our sick are improved. We wish to remember Mrs. Harry Hinnant who never feels well. May good health soon be with her. Mrs. Dona Todd is improving and we are so glad for her.

We are very sorry little Peggy Johnson had the misfortune to break her arm last Saturday while visiting little Ann Alford. They were riding their bicycles when Peggy's threw her breaking the left arm just above the elbow. Our best to her and may it soon be healed.

Saturday at his home in Raleigh. He was buried Sunday afternoon near Clayton.

The G.I. haircuts are going to the extreme these hot days, according to the one Mr. Willard Gay got on Thursday of last week. But why worry about the loss of those curls when some one else pays for the haircuts and after all he says he has more hair than a lot of the men in this community. Don't believe it for it would take a microscope to see whats left. There's hope though for a new growth.

Miss Betty Hinnant visited friends in Wendell Sunday.

Mr. and Mrs. M. B. Alford and children spent a short while with Mr. and Mrs. Floyd Johnson Sunday night.

Day and night, electricity plays a big part in baby's life.

Dependable electric clocks keep him on schedule. Electric service prepares and refrigerates his food — heats water for his bath and endless laundry — helps wash and iron his clothes.

Electricity plays a big part in the family life as well.

It's always ready to save steps for mother, and lend a willing hand with heavy chores. It provides comfort and convenience and even entertainment for the whole family.

But when it comes to cost, electricity's a very small item indeed.

Your friends and neighbors in this company — under sound business management — are continually using their skill and experience to keep electricity the biggest bargain in your family budget.
