This week will be a busy one for many. All the men are making preparations for the supper they are going to sponsor on Saturday from five till eight o'clock. They are having Pig Barbecue, Brunswick stew, slaw, and a dessert. Tickets are being sold in advance for \$1.25. The proceeds will go to the new church building. We are going to see how the men will put this one over. If they do a good job on this one, we will let them plan them all.

It's up to the parents, children and teachers to make it so. So let's give our school our full support and see if we can't have that good school year.

Technicolor Comedy Coming to Wakelon

Comedy and music have been added to the tense theme of an outdoor drama in "The Gal Who Took The West" and the net result is a very enjoyable picture.

The Technicolor movie, which opens Thursday, Sept. 22 at the Wakelon Theatre for two days stars Yvonne De Carlo, Charles Coburn, Scott Brady and John

Russell. The latter two he-men carry the action. Yvonne and Coburn handle the comedy.

Miss De Carlo proves a smart and entertaining comedienne, easily keeping pace with the veteran Coburn in sparking laughs.

The curvaceous Yvonne also

handles her musical sequences in grand style. Her "Frankie and Johnny" number is a riot of harmony and laughs, and one of the best musical moments she has given the screen.

"Clancy Lowered the Boom," also in a comedy vein, is another

outstanding song sequence.

One of the picture's chief charms is the way in which it is unfolded. A magazine writer, probing into the history of the O'Hara family of pioneer Arizona, gets most of his facts from three old men in a decrepit saloon.

Only one word fits it —

Wonderful!

YOU know how it usually is—slow and steady is the rule in automotive progress.

But every now and then it happens. Along comes a car that's new all over—like this one—and headlines sing the news.

Take the styling of it—fresh and smart and really exciting from its non-locking bumper-guard grilles to the jet-plane look of its fenders.

Take the outward size of it—handy in traffic, easy to garage, actually more room and a sweeter ride in fewer over-all inches.

Step inside—and stretch yourself in the biggest interiors ever found in a Buick Special, with a full twelve inches added to rear-seat hiproom.

Try the power of big 110 or 120 hp high-compression Fireball engines—sample the restful levelness of a ride that sets the standard for the industry.

Check controls—and note really big news: The luxury of Dynaflo Drive*—newest, simplest and smoothest of all modern

Finally, look at the price tag. Measure its figures against others—and see if any car, even in the lowest-price field, gives you so much of what you want for each dollar you invest.

Tops in style, tops in room, tops in lift and life and traveling ease, a trip to your Buick dealer will show you this is wonderful in value too!

For the biggest buy of this year—and many, a year to come—better go now and get your order in!
