COTTON EVENING DRESS FOR SPRING

Broad, tri-colored panels in the skirt and a high, choker-type collar on the halter blouse give this evening ensemble a regal air. Made by Lotte of Drewyn from Wesley Simpson's "Rustler" cotton, it was selected by Cosmopolitan magazine editors for a spring wardrobe. The skirt, cut full and long, comes in gray-chartreuse-white, or gray-navy-mauve and sells for about \$25. Another \$8 buys the blouse, which buttons to the waist and is in gray, chartreuse or mauve solid colors.

Politicking Takes Time, Says Publisher's Spouse

Running for a political office is certainly not the easiest thing in the world. Some time ago I ran an editorial telling of the trials and tribulations suffered by one who seeks political office. Now I am realizing more and more that I understated the facts.

Ever since I first muscled my way into the affections of my wife (then my girl friend), Judy has complained about the limited amount of time I spend with her. "It's either the National Guard, or the Rotary Club, or the American Legion, or the Boy Scouts, or the Chamber of Commerce, or basketball in the winter and softball in the summer. You work three nights a week and then leave me at 5:30 in the morning to go back down to the printing office. And now you are going to take time to politiki!"

She is an ever-loving wife in spite of it all, and come election day next month, she says she's going to mark an "X" by my name. That is, she will vote for me if I won't make any more campaign

Progress Is Made In Phone Service By Southern Bell

The Southern Bell Telephone Company is well along with its construction of a telephone cable and lines to serve the farm families and businesses along U. S. Highway No. 64, northeast out of Zebulon and in and around the Pilot Community, it was announced today by Paul B. Woodson, telephone manager for Wake County.

Cable is being extended from Zebulon to Pilot and lines are being built throughout this entire section in order that approximately 100 additional subscribers for telephone service might be served.

"We expect this project to be completed during the latter part of this month," Woodson stated, "and anticipate that these telephones will be installed during the latter part of April and first of May."

"The construction of this project follows closely behind the completion of a rural project north out of Zebulon into the Hopkins Community. Another project will carry telephone service down Highway No. 39, south out of Zebulon as far as Emit Church the latter part of this year," Woodson stated.

"The extension of our lines in all directions out of Zebulon is in keeping with Southern Bell's plans to bring telephone service to the farms of the areas which it serves as quickly as possible, and is another step in our program to extend the convenience of the telephone to farm families," he said.

"We are doing our level best to hasten the day when rural telephone service will be available for everyone who wants it," Woodson concluded.
