## IN OUR TOWN...

At this particular moment in Zebulon there are few participation sports available to those too young or too old to play in one of the softball leagues. But with the hiring of two trained recreational leaders, things are looking up. There will soon be things to do at night and during the day—wholesome activities—for all age groups. Your cooperation and participation is solicited.

## Dave Finch Best Shot in Battalion; Guardsmen Qualify with Carbines

Every man in Battery A qualified as marksman or better with the carbine during the firing at Camp Butner Saturday and Sunday. The Zebulon unit of the National Guard spent a busy two days shooting first for familiarization and then for record. Headquarters Battery of Louisburg and the Service Battery of Youngsville joined with Battery A for the work.

Dave Finch took top honors for the battalion, scoring 192 points and qualifying as Expert with the carbine. He will be awarded a \$10.00 prize for achieving top place in the local battery.

## Water Safety Classes Planned

The Wake County Chapter of the American Red Cross has announced that plans are being completed for a bigger and better Learn to Swim week, to be held from June 26 through June 30, at Hayes Barton and Pullen Park Swimming Pools.

Early in the spring a questionnaire circulated to all of the school children of the county as a part of a survey being conducted to ascertain the needs and facilities for an expansion of the Red Cross water safety program.

Despite efforts which were made to explain that this was for gen-

eral survey purposes only, and filling out the questionnaires did not constitute a registration in any particular class, many persons misunderstood that and considered themselves registered in a class.

The Red Cross reiterated the fact today, that the students who filled out the questionnaires are NOT automatically registered in a class.

All persons interested in enrolling in classes should watch their newspapers and radios for the scheduling of specific classes, and for further details consult the Office of the Wake County Chapter at 304 S. Salisbury Street in Raleigh.

Last night an inspection was held of the equipment issued the men for the weekend firing. During the remainder of the month of June the drills will be taken up with preparation for the 15-day summer maneuvers to be held beginning July 2.

## DYE CLOTHES

You can easily get another season's wear from sun-faded shorts, slacks, blouses and other outdoor wearables. A few dime boxes of all-fabric dye, available in 50 colors, will do the trick. If the fabric has faded unevenly or if you want an entirely different color, use fast-acting color remover first, advises Tintex Home Economics Bureau. Your washing machine is ideal for tinting, especially larger articles, such as slacks suits and dresses, the bureau points out.

## Tar Heel Farmers Urged to Grow Sheep for Profit

North Carolina farmers who are looking for a livestock enterprise may find the answer to their questions in sheep, says Lemuel Goode, animal husbandry scientist with the North Carolina Agricultural Experiment Station.

Goode says he is convinced that a well managed flock can be one of the most profitable enterprises in the State.

He has plenty of good reasons to support his conviction. One of the more important reasons is that the number of sheep in this country has declined rapidly in recent years. Lamb prices are expected to stay at a high level longer than prices of beef or pork. Also lamb is a speciality product and has less price fluctuation than other meats. Wool, a second product from sheep, lessens the risk of the investment. Wool prices are high and should remain high with government support.
