Many Local Ponds Crowded By Weeds and Vegetation

G. L. Winchester S. W. Holleman

Many farm ponds in the county have various types of weed growth in them. This growth interferes with fishing and is entirely unnecessary as food or cover for fish. These weeds encourage the breeding of mosquitoes and will provide protection for too many bluegills. They use the fertility of the pond without increasing food for fish. These weeds should be destroyed. Many farmers are keeping their ponds clean but some are allowing weeds to grow around the

Now is the time to destroy such plants as cattails, marsh grasses, and other weeds growing in shallow water. These plants cannot be controlled by fertilization but tails. An individual plant may be bers are urged to be present.

pulled very easily by a small child but if allowed to grow one season, it becomes a job for several men. The material should be pulled and thrown out of the pond because if left in the water as it decays it forms "pond scum," which is also objectionable in fishing. For better fishing keep your pond clean of weeds.

72,000 Will See Roanoke Pageant **During '50 Season**

A pageant presented on an island inhabited by less than a thousand people that attracts 72,-000 paying spectators in a single season is worth looking into.

That's what "The Lost Colony" on Roanoke Island, North Carolina, did last summer-but when you go to Roanoke Island you won't find "The Lost Colony" referred to as a pageant. It's a symphonic drama, written by Pulitzer Prize Winner Paul Green, with music by Pulitzer Prize Winner Lamar Stringfield, and it is staged by Samuel Selden, who directs the world famous Carolina Playmakers of the University of North Storm Aid Drive

Its cast last summer included Kay Kyser and Georgia Carroll of Hollywood note, Assistant Secretary of State James Webb, All America Tailback Charlie Justice, the Governor of North Carolina, Novelist Foster Fitz-Simons and Editor Jonathan Daniels . . . to mention a few. Its chorus is the Westminster Choir of Princeton, New Jersey, under the direction of Theos Cronk.

President Franklin D. Roosevelt made a special trip by boat to view "The Lost Colony" when it began its excursion into dramatic ing both merchandise and cash. history in 1937. Remember, it is they are today.

season (there was an interruption due to the war) on July 1. All during June the cast of 200, selected on a competitive basis from among the islanders, the Carolina Playmakers, and a sprinkling of Broadway talent, work hard at rehearsals. Roanoke Island is busy with nimble fingers sewing busy with nimble fingers sewing' the unique waterside theatre which seats 3,000 —and if you're planning your trip on a weekend, you'd better be sure to reserve your seats in advance.

It would also be wise to reserve your hotel room -or suite well in advance, too. Oh yes, in the decade and a half since "The Lost Colony" was first produced, Roanoke Island has blossomed forth with a modern hotel and scores of tourist homes, and on the beaches across Roanoke Sound fine hotels, motor courts, and guest

Local Guard Unit Fires Heavy Guns At Fort Jackson

FT. JACKSON, S. C. - Battery A, newest unit in the 113 Field Artillery Battalion, fired its 105-mm howitzers for the first time this week during the three-day tactical field problem conducted Monday, Tuesday, and Wednesday, July 10-12.

Early Monday morning First Sergeant Sidney Holmes' whistle blasted the darkness, and the 37 enlisted men in Battery A tumbled from their bunks. A hot breakfast was served at 4:00 a. m. by the mess section under the supervision of Sfc. Percy Parrish, Cpl. Ray Gainey, and Pfc. George R. Massey, Jr.

Promptly at 5:30 a. m. the battery led the battalion convoy from the IP and followed the winding road out to the combat zone, where The local drive for aid to the Sgt. Frank Massey and Cpl.
