

UNION CHAPEL NEWS

There was quite a large crowd at Union Chapel last Sunday. Certainly was glad to see more at church than usual. There were some new faces Sunday.

Bringing us a wonderful message last Sunday was Rev. Parker of Zebulon, student at Wake Forest. We were all glad to have him and his wife with us. Mrs. Parker sang a very beautiful hymn for us. Looking forward to their next visit at Union Chapel.

We in this section are in terrible need of rain. The wells are completely drying up. We are all hoping to see some water real soon. This has been some wonderful weather on the farmers feed. We are also glad to see a little bit of cold weather.

How does it feel to drive a Buick?

If you think perhaps we're hinting that it would be a good idea for you to try out a Buick—mister, you've never been so right.

It does a lot of things for you and to you that will be something new in your driving experience.

Take the way it feels beneath your hands on the wheel—eager and willing and anxious to please.

It spurts when you want to spurt—rolls with effortless momentum when you want to cruise.

When you take a curve, it snugs down to the road with sure-footed confidence.

After you make a turn, the front wheels instinctively seek a straight course. This car seems to guide itself.

When you come to a bumpy stretch, each separate wheel on its own coil spring steps you smoothly along on a level keel.

Then there's power that surges into action at a nudge of your toe—sends your speedometer needle soaring up to any speed the law allows, in a matter of seconds.

And there is also thrift—the gas-saving thrift that comes from a high-compression valve-in-head Fireball Engine found in no other car.

To top all this, there is Dynaflo Drive*—that feeds power in a steady, falterless flow—lets you ride relaxed

in busy traffic or on a day-long cross-country drive.

We're willing to stand on the statement that no other car rides, performs or drives like a Buick.

But why take our word for it? Come in—take over one of these lively lovelies—and see for yourself.

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLOW DRIVE* • FIREBALL ENGINE
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
- WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING
- BODY BY FISHER
