

# THE ZEBULON RECORD

Volume XXVII. Number 33.

Zebulon, N. C., Tuesday, January 8, 1952

Theo. Davis Sons, Publishers.

## AT FORMAL DEDICATION OF NEW LIGHTS

Zebulon's Mayor Worth Hinton, left, accepts the key to the new Arendell Avenue lighting system from Ralph Talton, right, manager of the local office of Carolina Power & Light Company, which made the installation and will supply repair and electric service for the lights. Looking on is R. A. Snow, district manager of the power company. The ceremony took place December 14.

## Eldred Rountree Urges Farm-Town Cooperation

Small town merchants should go out of their way to be friendly and learn of the problems facing the farmer, said Eldred Rountree in a short talk to the Zebulon Rotary Club Friday night. In his talk, Eldred answered the question posed by Program Chairman Ralph Talton, "What do the farmers expect from the merchants in a small town."

Most farmers today are progressive, Eldred said, and the more

their income, the more money they will have to spend with those who help them.

One of the things needed most for the farmers is a market for their produce. Even though tobacco and cotton are the chief money crops, farmers are diversifying the farming and more markets should be provided, he said.

His wide experience in working with farmers everyday gave Eldred an insight into the problem of the farmers which most businessmen lack. His discussion proved interesting and informative.

Ferd Davis delivered a request from the Zebulon Garden Club for financial assistance in purchasing dogwood and long leaf pine trees for Zebulon. The Rotarians gave \$20 to help the Garden Club.

This money, together with \$30.00 personally donated by the Zebulon Lions Club, will be used to purchase seedlings and small trees for the cemetery and other public areas.

## Funeral Services Are Held for Mrs. Moody

Funeral services for Mrs. Pearl Glover Moody, 53, of Wendell, who died unexpectedly at her home of a heart attack last Friday morning, were held at Tabernacle Baptist Church Sunday afternoon at 3 o'clock by the Rev. A. D. Parrish and the Rev. S. G. Stevens. Burial was at the Corinth Baptist Church cemetery.

Surviving are her husband, D. E. Moody; a son, J. E. Moody of Wendell; two daughters, Mrs. F. Tinsley of Richmond, Va., and Mrs. O. K. Watkins of Raleigh; three grandchildren and four brothers, J. W. and A. G. Glover of Middlesex, W. P. Glover of Wendell and Carl Glover of Zebulon.

## Wakelon Cagers Drop Two Games To Wendell, to Play Again Friday

Wakelon's basketball teams lost two games to Wendell High School cagers at the local gymnasium Friday night, when the local girls lost by a 78-42 score and the boys dropped a 59-49 decision to Coach Harry Helmer's hustling five.

Martha Temple led the Wakelon girls by scoring 23 of their 42 points, and Henry Kitchings was top man for Coach Jim Fish's outfit with 15 points. Baugh with 31

points was top scorer for the Wendell girls, and Underhill scored 30 points to lead the Wendell boys.

In two other eastern Wake high school games Friday night, Knightdale beat Rolesville, the girls winning by 48-39 and the red-hot boys' team outclassing Rolesville to win easily, 78-40.

On Friday night of this week Wakelon will again meet Wendell in two games at Wendell.

## Plentiful January Foods Are Listed By Mrs. McInnes

Prunes, raisins, oranges, and tangerines are the U. S. Department of Agriculture's featured plentiful foods for January, Mrs. Maude McInnes, county home demonstration agent for the State College Extension Service, said this week.

Because of their special abundance, these four items top USDA's monthly plentiful foods list for the Southeast. Prune production is an estimated 26 per cent higher than last season, the home agent explained, while raisin production is up 67 per cent. The early and mid-season orange crop in Florida is record-large, and there'll be more tangerines this season than last, according to USDA crop forecasts.

Other foods on the January list for this area are pork and pork products, heavy turkeys, hens, dry milk, cottage cheese, canned tuna, frozen fish, dry beans, canned and frozen orange and grapefruit juices, honey, rice, pecans, and almonds.

The rice crop for 1951 is forecast at a record 44.6 million hundred-weight. Heavy supplies of frozen concentrated and canned orange juice from the new pack will be available in January, US DR reports. The home agent also pointed out that stocks of canned grapefruit juice are about four times those of a year ago.

Mrs. McInnes points out that Zebulon housewives can save on the grocery bill by following these suggestions.

## Local Cagers Take Easy Louisburg Win

Sgt. Hilliard Greene, gunner of the No. 1 firing section, led the Battery A Canoneers to an 83-45 victory over Headquarters Battery of the 114th Field Artillery Battalion in a game played in the Louisburg armory Saturday night. The Zebulon unit proved too much for Capt. Melvin Holmes' Headquarters quint, and after a closely fought first period, pulled away to a one-sided victory.

Other leaders in the Battery A attack included Pfc. Spot Beddingfield, Cpl. Jimmy Spivey, Sgt. George Massie, Cpl. Connie Bunn, Lt. Jack Potter, and Capt. Barrie Davis.

Plans are being made for a Battalion's League, with teams from Roxboro, Louisburg, Youngsville, Dunn, and Zebulon participating.

## BEAUTY HELPS

Beautiful Miss America, Colleen Kay Hutchins of Salt Lake City, Utah, adds her contribution to the 1952 March of Dimes. Four out of every five polio patients need and receive March of Dimes help. Receptacle shaped like the famous iron lungs will be placed in Zebulon to receive contributions.

## March of Dimes Campaign Begins

The March of Dimes, now going on throughout the nation, will begin in Zebulon next week, according to Barrie Davis, who was appointed last week as chairman of the drive in this community. A goal of \$1,000 has been set for the Zebulon community, which is larger than any amount raised in previous years.

In 1949 a total of \$867 was raised, and in 1950 \$885 was contributed to the March of Dimes.

Ed Ellington, Ed Hales, R. H. Herring, and Melvin Massey are also on the committee to help with the campaign. Other committee members will be appointed this week.

Even though much progress has been made through research financed by the March of Dimes, polio is the only epidemic disease still on the increase in America. Scientists say that the high pattern will probably continue until some means is found for preventing the disease.

Help for victims of polio has been given in this community. Twice in the last decade epidemics have struck North Carolina worse than any section of the country.

The March of Dimes will continue through January 31, and in addition to receptacles for contributions in stores, solicitors will attempt to contact every person in the community so that everyone may have an opportunity to help.

## New Tax Circular To Help Farmers Figure Payments

Up-to-date information on filing farmers' income tax returns for 1951 is available for Zebulon farmers in a new circular just published by the State College Extension Service.

Prepared by an extension farm management committee representing all the Southern states, the circular has been approved by the U. S. Bureau of Internal Revenue. Its title is "Farmer's 1951 Income Tax" and it is issued in North Carolina as Extension Circular No. 3666.

Persons desiring a free copy should see their local county agent or write the Department of Publications, State College Station, Raleigh.

## Variety of Subjects

The circular covers such topics as who must file a return, date return is due, forms used by farmers, reporting on cash or accrual basis, figuring depreciation, sale of timber, development costs, and other subjects, as well as several pages of questions and answers.

Several illustrations are used to show the correct method of filling in the various forms.

The bulletin points out that if two-thirds of a person's gross income is from farming and his business year starts January 1, he has two choices in filing returns and paying the tax. He can file and pay this amount by January 15, and then file his return and pay any balance due by March 15.

## Stamp Issued Paying Tribute to 4-H Clubs

The U. S. Post Office Department has announced plans to issue a special 3-cent stamp to honor the work of the nation's 4-H Club members.

According to L. R. Harrill, State 4-H Club leader for the State College Extension Service, the stamp will go on sale at Springfield, Ohio, on January 15.

Club members in Wake County who desire first-day cancellations should send a limited number of addressed envelopes (not more than 10) to the Postmaster, Springfield, Ohio, with money order remittance to cover the cost of the stamps to be affixed. An enclosure of medium weight should be placed in each envelope and the flap either sealed or turned in. The outside envelope to the Postmaster should be endorsed "First Day Covers."

The stamp will be arranged horizontally and issued in sheets of 50. The color will be green. An initial printing order of 110,000,000 has been authorized.

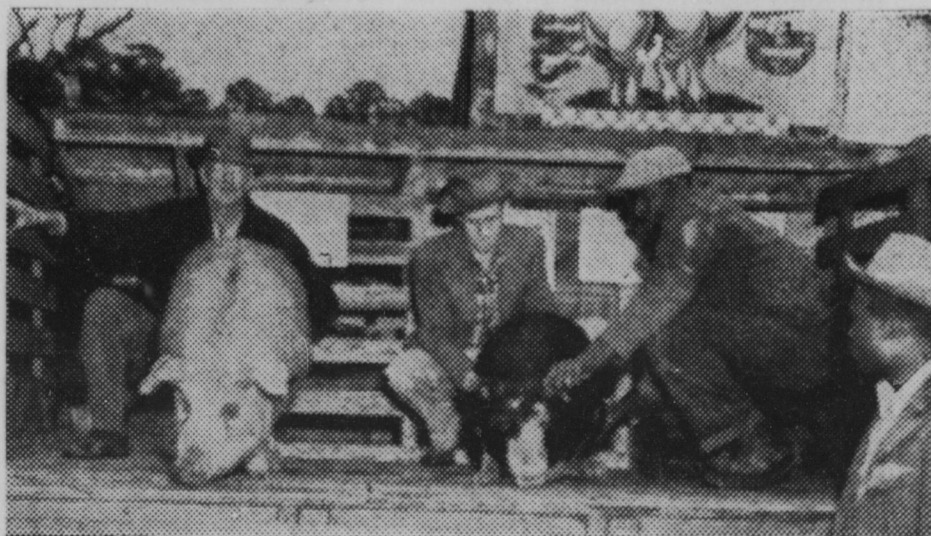

The central design of the stamp depicts a group of typical farm buildings at the left, while in the center appears the symbolic four-leaf clover, with the letter "H" superimposed on each of the four leaves, representing head, heart, hands, and health. Directly beneath this symbol is inscribed "The 4-H Clubs."

## Announce Births

Mr. and Mrs. Frank Massey announce the birth of a son, Frank Thomas, on January 5, at Rex Hospital.

Mr. and Mrs. Marvin C. Whitley announce the birth of a son, Michael Conley, on January 4, at the B. D. Thomas Clinic.

## IKE AND MIKE WITH THEIR WINNERS

Mike and Ike, contestants in the weight-gaining duel sponsored by Massey's Hatchery, are shown above with their winners. Purina Mike, on the left, was won by P. P. Wright of Louisburg. Ike, the sad-looking white-nosed pig in the center, was won by J. C. Atkinson of Wendell, Route 1, who is holding Ike's right ear. Others in the picture are Roy Fowler and James Richardson, both employees at Massey's Hatchery. The contest was conducted to show the benefits of proper feeding.
