Guard Attendance Shows Big Gain; Cagers Lose First

Nearly perfect attendance was achieved for the second drill in succession by Battery A, Zebulon's National Guard unit, on Monday night when only two men were absent, and one of those was confined to the hospital. Attendance is being stressed by Battery A to increase the benefits received from the scheduled training.

The improved attendance, which brought the local unit from bottom position among the five batteries in the 113th Battalion, to near the top in December, drew words of praise from Major Edward Yarborough, battalion commander.

In November Battery A recordant Governor in the Spring Dem- ed an average attendance of slightly over 70 per cent. The average took a jump in December to over 90 percent. For the first two drills in January it has averaged over 96 percent.

Captain Barrie Davis cited the men in the battery now as "the best group of men ever assembled in one unit." During the past six months a program of selective recruiting has been in effect, and as a result the caliber of the personnel in Battery A is at an alltime high.

The recruiting program will be carried into schools in the nearby communities this month. An appeal will be made to men 17 years to 181/2 years to enlist in the Naial was in the Zebulon Cemetery. tional Guard. The tremendous benefits of membership in the Nationdaughters, Mrs. L. C.
