

Couples Club Has Meeting Saturday

Mr. and Mrs. Barrie Davis were hosts to their Couples Club Saturday night at Judd Robertson's cabin.

Following several progressions high score prizes were won by Mrs. Ferd Davis and Fred Smith, and low by Mrs. Ben Thomas and Ferd Davis. Mrs. Wallace Chamblee won guest high.

Iced drinks were served during play and at the end of the evening wieners were cooked over an open fire by the men and served buffet style with cheese slices, pickle, and hot coffee.

Present were Mr. and Mrs. Ben Thomas, Mr. and Mrs. Frank Coiner, Mr. and Mrs. Armstrong Canady, Mr. and Mrs. Fred Smith, Mr. and Mrs. Ferd Davis, Mrs. Frederick Chamblee and Mrs. Wallace Chamblee.

Mrs. Gregory Is Hostess at Bridge

Mrs. Helen Gregory was hostess to her bridge Club and a number of guests recently at a lovely party at the teacherage.

Arrangements of dahlias, zennias and other fall flowers decorated the living room where four tables of bridge were enjoyed.

Mrs. Lois Wall won high score prize for club members and Mrs. Philip Olive, second high. Mrs. Ferd Davis won high for guests and Mrs. W. C. Campen second high. Mrs. Kenneth Herndon of Wendell, recent bride, was presented a gift of crystal.

A delicious dessert course with coffee was served by the hostess.

Playing were Mesdames Lois Wall, Fred Smith, Ferd Davis, Wallace Temple, Garland Godwin, Helen Gregory, Vernon Powers, Ben Thomas, Eugene Privette,

"With fellowship and service to one another at State College.

others as its keynote, Rotary provides a common ground for 360,000 business and professional executives throughout the world, regardless of differing nationalities or political or religious beliefs," the Rotary District Governor emphasized.

The Boy Scouts of America have honored 2,861 of its members since 1910 for saving the lives of others.

The coveted Eagle Scout rank in the Boy Scouts of America is earned by nearly 10,000 boys each year.

The 47,000 Scouts at the National Boy Scout Jamboree at Valley Forge, Pa., in July, 1950 was the largest gathering of youth in the Western Hemisphere.

Pleased with Yield Of Arlington Oats

Nash County Negro farmers are well pleased with the yields and performance of their first crops of Arlington oats, according to W. F. Wright, Negro County Agent.

During the fall of 1951, twelve farmers seeded one or more acres of Arlington oats as a demonstration to prove locally the value of the new variety. A report of these demonstrations shows that three farmers cooperating harvested their crops for grain and nine farmers used the crop for hay.

Ulvert Wiggins, Route 2, Middlesex seeded four acres of the oat variety and produced an average of 65 bushels per acre. Wiggins prepared a well-pulverized seedbed, applied 400 pounds of a 2-12-12 fertilizer per acre and drilled the grain in at the rate of two bushels per acre during the third week of October. The crop was top-dressed at the rate of 50 pounds of nitrogen per acre during the first week in March, 1952.

Wiggins reported that the crop stood up very well and no trouble from any type of small grain disease was noticed.

The second highest yield was reported by Cary Moody, Route 2, Nashville who produced 60 bushels of oats per acre using the Arlington variety. Because of difficulty in getting the crop harvested on time, W. B. Battle, Route 1, Nashville, N. C., had a yield of only 25 bushels per acre. An average yield 3½ tons of hay per acre was reported by nine farmers who harvested their crops for roughage.

In order to determine the amount of nitrogen needed to produce the most economical increase in yield per acre of small grain, three farmers conducting Arlington oat demonstrations also completed top-dressing tests. In each case, three plots were top-dressed during the week ending March 1, at the rates of 40, sixty and 80 pounds of nitrogen per acre respectively.

CLASSIFIED
