## Hospitalization Plan Agent to Be Here

A representative of the Blue Cross-Blue Shield hospitalization plan will be at Hales Farm Supply Company three days this month to renew policies held by members of the Zebulon Farm Bureau in the group plan sponsored by the North Carolina Farm Bureau.

Renewals will be due on January 25, according to Robert Ed Horton secretary of the Zebulon Farm Bureau.

Hospitalization insurance bought through the Farm Bureau is less expensive than individual membership because of the Bureau Group Plan.

## Dimes Campaign Organized; Poster Girl Pens Note

The business district of Zebulon was divided into eleven zones and a solicitor appointed for each of the zones by Chairman Ed Ellington of the March of Dimes campaign. He said that every merchant and businessman will be given an opportunity to contribute to the fight against infantile paralysis because the major part of the money raised each year for the March of Dimes is given by the businesses.

School children are making their solicitations this week, the chairman said.

A special feature of the March of Dimes this year will be a "Mothers' March," under the direction of Mrs. Worth Hinton, to be held late in the month.

Mothers will make a house-to-house solicitation for funds on the special day set aside for the "Mothers' March," and the entire town and community will be included in the drive.

### Letter to Children

Dear Boys and Girls:

How are you? I hope you are well. I am fine. I am six now and can run and play with my sister Pamela. But once upon a time I couldn't even walk.

When I was two, my little sister and I got polio. Pam wasn't very sick but I couldn't breathe and had to stay in a kind of box they call an iron lung. I was in a hospital for nearly a year. And when I could first walk I had to use a leg brace and use crutches.

Mommy, who is helping me write this letter, said that the doctors and nurses and everything that made me well again cost a lot of money. All the bills for the sickness came out of the March of Dimes from money that kind people give every year.

So Pam and I want to ask you to please give as many pennies as you can this year to the March of Dimes so other children who get polio can get well like we did.

Your friend,

## Local Man to Seed Three Meadows In Lespedeza in Conservation Move

The Soil Conservation Service technicians staked terrace lines on the farm of S. L. Veasey of Varina this past week. He stated that he experienced trouble in one field until he widened the meadow to include the critical slope on either side. The meadow will average better than 50 feet in width and is sown to a mixture of tall fescue and lespedeza. He cut two crops of hay in 1952 and will possibly use an electric fence and graze it this spring. This is in ad-

dition to the fact that the terrace water is carried off the field by the meadow in an orderly manner.

Edward Oakley, working on the farm of his mother, Mrs. W. A. Oakley of near Zebulon, is planning to construct and seed three meadows this spring. He will seed tall fescue and lespedeza this spring using oats as a nurse crop. Mr. Oakley stated that something had to be done as the problem of carrying water from roadways and
