Door-to-door campaigns were being conducted by a number of the hopefuls, and letters were mailed by others as the tempo increased.

Mayor's Letter **Gives Program**

The fact that Mayor Worth Hinton failed to have the budget for the Town of Zebulon published should not appear as the wilful neglect of the mayor, Town Clerk Willie B. Hopkins declares in an advertisement appearing on page six of this issue. The town employee inserted the paid advertisement following discussion caused by a statement published by candidate Ferd Davis which related how Zebulon's mayor has failed to comply with the laws governing municipalities and thereby endangered the credit of the town.

Reliable sources said that Clerk Hopkins refused the mayor's offer to pay for the advertisement, in which Hopkins assumed the Mayor's responsibility for complying with the law.

Efforts made all yesterday morning and yesterday afternoon to contact Mayor Hinton for a statement proved futile, although word was left at his place of business at 9:30 a.m. to call the Zebulon Record as soon as possible.

Davis Cites Law

When informed of the statement, Ferd Davis commented: "Of course it is very generous of Mr. Hopkins hut in Zebulon this afternoon about to shoulder the Mayor's responsibility, and I am happy to know returning Sunday morning after that he believes the Mayor's neglect was not willful. However, About 25 boys will make the trip, this does not change the law, and and while at the camp they will if Mr. Hinton believes it unfair to require him to live up to the provisions of Chapters 153 and Scoutmaster Bob 160 of the General Statutes of North Carolina, his quarrel is with the legislature and not with me.
