She's Dreaming
about the **FREEZIN' SEASON**

And what dreams! Dreams about fresh, red-ripe strawberries in January—green corn, garden fresh in December—lush peaches, with that tree-plucked taste, in March. That's putting your dreams on the tip of your tongue.

These dreams are made of sterner stuff—they're a reality, when you own an electric home freezer. Just look ahead from the freezin' season to the eatin' season. Frosty, fall days to come when you and your family can enjoy the full flavor and freshness of the summer harvest. You'll find that nothing ever quite equals the simple adventure of having your own garden, forever fresh, in your own home.
