REFUSE TO COOPERATE

March of Dimes Won't Take United Fund Help; Plans Independent Drive

National Foundation for Infantile in the United Fund. Paralysis, told the Zebulon Rotarians last Friday night that a March of funds already available for the fight against polio in the United

What was scheduled to be a five-minute report to the club the hearing.

progress made in the fight against polio, and explained how the money raused in various communities is divided between local and national purposes.

The National Foundation will not accept money from United Funds or similar organizations because it believes more money can be solicited through an independson, it will not accept money from the Zebulon United Fund.

Members of the Rotary Club explained that resistence to charitable drives is increasing in the community, and that the United Fund was instituted to answer the need of a single, intensive campaign. It was agreed by the community that the United Fund would replace the usual multitude of drives to be held in 1954.

It was explained that the Rotary Club, which has conducted the March of Dimes here for years, could not accept the project this year without "breaking faith" with the community, for the people voted for and supported the United Fund believing it would eliminate

C. E. Seawell Resigns Fire Department Post

C. E. Seawell, a member of the Zebulon fire department 18 years, tendered his resignation effective Dec. 31. Fire Chief Hopkins accepted the resignation with re-

SAFETY HELMETS PRESENTED WAKELON TEAM

Sam Narron, former Wakelon High School and major league baseball star, is shown at left in the picture after presenting two of the famed safety batting caps to Tony Pearce of the Wakelon baseball team. With Sam are, left to right, Coach William Weir, Tony Pearce, and Coach Herbert Holt. The occasion was the recent Lions Club meeting when Sam told much of his major league experiences. The popular athlete is now coach with the Pittsburgh Pirates. He broke into major league baseball batting for Dizzy Dean against the great Carl Hubbell.

Highway Commission of Virginia that 10,052 dogs were killed during the year 1952 on the highways of that state. Since the mileage of North Carolina is greater than that of Virginia, it is assumed that the number of dogs killed on highways would be larger in this state. I think it can be reasonably estimated that the majority of these dogs would come within the category of the unwanted, unowned, stray dog because people who have valuable dogs, as a rule, do not permit them to run at large
