DIG THAT CRAZY TRENCH!

The gentleman with the shovel is not setting out his wife's geraniums — he's termite-proofing his premises. The portion of the United States shaded in the inset map is subject to termite damage and that includes Zebulon; but just by digging a shallow trench for over three miles along the sevaround your house and treating with a chlordane solution you can en mile board-walk. N. C. Lions save your house from the wood-eaters. Details of the treatment, made the second largest marching which is described as extremely simple, may be obtained from the United States Department of Agriculture.
