UNCLE SAM SEZ . . .

By Uncle Sam

There are far too many people who want to receive something from society without giving anything worth while to society. They are unwilling to be of help and service to others. They seem to think that it is the duty of their neighbors to give them all needed assistance in any time of need but never seem to think it is any concern of theirs whether they give the same assistance to others under similar circumstances. They live an enemy life that of receiving and never giving out.
 There is no way to have a creditable neighborhood in which to love without people giving of their means, time and knowledge to make it such. A community can not always give out and never receive and remain a worthwhile place in which to live.
 No community can remain a worthwhile community without the work which the churches are doing. Every person in every community are receiving benefits from the work of the churches whether they attend or not. Unless they are rendering aid in some form they are taking without giving.
 Every person is receiving much from merely being an American citizen. Unless they render reasonable service to their country they are taking and not receiving.
 Whether in the neighborhood, the church or the nation when there become too many receivers, deadbeats and loafers there will not be much left in society worth receiving.

"I was a stranger here"

"I'd moved here from another community, not knowing a soul... but friendly folks - from

neighbors next door to the folks at the bank - had me feeling right at home in no time!" If you are new in town, neighbor, let us be among the first to say "Welcome!" Stop in for a get-acquainted visit soon, won't you?

Another Safety First by FORD!

New *Lifeguard*
DOOR LOCKS

Safety research has determined that, in event of an accident, your chance of receiving a serious injury is *half* as great if you stay *inside* the car.

Ford's new double-grip Lifeguard door locks give added protection against doors springing open under impact—to help keep you safer within the car.

You'll be Safer in a '56 FORD
 Coming September 23
