UNCLE FERD'S ALMANAC

For Smoke or Ornament?

I was successfully killing time by conversing with S. D. Stallings the other night (I always enjoy talking to him because we have two things in common: we're both Democrats, and he's rich and I would like to be) when I mentioned that I wanted some oak wood for my fireplace.

He advised me that his brother might have some, and then commented on how much friendlier an open fire, especially an oak-fed fire, is than a stove, or even a heat-pump. As usual, he's right.

The fireplace is not peculiar to America, but it comes nearer being worshipped here than anywhere else in the world. Even the newest and most modern houses come equipped with fireplaces, some of which work.

I have two fireplaces at Fort Davis, and one winter when the floor furnace acted up for a week or so, the fireplace did a creditable job of heating five rooms (but it was cold as you-know-what in the other two rooms).

For just a little more money, you can get a circulating fireplace which will be efficient as a fine hot air furnace system, and it will be a lot more dependable. The Ellis Efirds, who live next to Lake Murray, heat their home with a circulating fireplace; its only fault is that its heat melts candles on the mantel. And Colonel Kenneth Hobbs heats a home about the size Mr. Barrow's would be if it were all on one floor with one (1) fireplace; it has a ple-

Molasses

Because he was having an affair with his estranged wife, L. F. Pollard, Raleigh policeman, poured molasses in the gas tank of Russell Bailey's car.

Bailey, who formerly lived on Zebulon, Route 1, works in Raleigh and lives at 315 E. Jones St.

The investigating officer said that he understood that Bailey had been dating Mrs. Ann Pollard, and Pollard became angry while he was "beered up" and allegedly poured molasses in his rival's gas tank.

Pollard and his wife had been separated for about a year.

num chamber, and ducts to every room.

But generally fireplaces generally fall into two categories: those which are ornamental, and those that smoke. Nothing can be done about the former, some of which are built without chimneys, but the latter can be improved even to the point of usefulness.

You ought to have a smoke chamber above your fireplace, but if you will control the depth of your fireplace it will probably work fine, with or without a smoke chamber. Just remember that your fireplace depth shouldn't exceed half its height, and the higher the top of the fireplace from the hearth, the shallower your depth should be. To the average eye, a big fireplace looks more symmetrical if it's deep; but if it looks symmetrical, it won't draw.

That's the trouble with the fireplace at the Zebulon Woman's Club. It looks fine, but sometimes

FROM SAN SALVADOR TO OHIO

With River Valley Commission

Bob Horton assumed the responsibilities as Assistant Director of the Ohio River Valley Water Sanitation Commission January 1, Edward J. Cleary, Executive Director, has announced.

Mr. Cleary said that the title is new to Bob, but that the duties associated with it have been increasingly placed upon him during the past few years.

Cleary said, "Bob's good judgment, technical competence and graciousness of manner have inspired the confidence of all with whom he has come in contact."

Bob carried the major responsibilities in the investigation of pollution conditions on the Ohio and Wabash rivers, and has acted as the Commission's expert witness at public hearings in connection with establishment of sewage-treatment requirements.

He is now devoting much of his time to assembly of Ohio River water quality data and the correlation of information for recommendations on industrial waste control.

Speeding Cases Fill Docket For Local Court

The Jan. 11 Recorder's Court disposed of the following cases, with Judge Irby Gill presiding.

Cornelius Statigs Waters, Durham, was charged with speeding 64 miles per hour. He was found guilty and fined \$25 and costs.

Robert Thomas Boyette, Greenville, N. C., was charged with speeding 64 miles per hour. He entered a plea of guilty through attorney, and was fined \$20 and costs.

George Hunt was charged with driving on the wrong side of the road, not passing. He was found guilty and fined \$10 and costs. A second charge of having improper brakes was lodged against him. In this case he was found guilty and fined \$20 and costs.

Charles Oscar Kemp was charged with having an improper muffler. He was found guilty and fined \$10 and costs.

Eugene Edwin Duffell was charged with speeding 75 mph. He was given a fine of \$50 and costs. Notice of appeal was given in open court and bond was set at \$100.

Franklin Garner Barham was charged with having no operator's (See COURT, Page 4)

Recreation

The Zebulon Recreation Committee met January 11 at the home of Mrs. James R. Creech for the purpose of outlining plans for the summer recreation program.

Mrs. Creech said that at present no business could be devulged. Plans of the program will be announced in a future issue of the Record.

Those present were: George H. Temple, chairman; the Rev. Beverly A. Asbury, the Rev. Troy Barrett, Dr. Ben Thomas, Pete Bryant, Mrs. Ida Hall, and the hostess.

Following the business meeting, the hostess served a refreshment course.

Dentists' Offices Are Moved To New, Modern Building

Dr. L. M. Massey

Dr. Zyba K. Massey

Dr. L. M. Massey and Dr. Zyba K. Massey have moved their offices to his new building which is located on the corner of North and Church Streets. Construction on this residence type office building was begun this past May.

The building is of modified modern architecture and is built of Crab Orchard Stone and Roman Brick with California Redwood trim and iron grill work. It consists of five operating rooms, a recovery room, an x-ray room, a fully equipped laboratory, a spacious pine-paneled reception room, a lounge for dental assistants, four bathrooms, and a utility room. Indirect lighting is used in the reception room and private office. It is heated and air conditional by a General Electric Weathertron Unit System of heating and air conditioning. The ceilings are of acoustical tile; the floors of lifetime vinyl tile.

The general contract work was done by Chambers and Caviness, Raleigh; plumbing by Bailey Plumbing and Appliance Company, Raleigh; wiring by A. C. Perry and Company, Zebulon; plumbing and wiring material by American Plumbing and Electrical Supply Company, Inc., Zebulon; other material by Carolina Builders Supply Company, Raleigh, Wake Builders Supply Company, and Massey Lumber Company, Zebulon; lighting fixtures by Kenneth Kennedy, Wilson; interior decorating by J. C. Van Landingham of Interiors by Van, Raleigh; furniture by Whitley Furniture Company, Zebulon; landscaping and shrubbery by Aventura Nursery, Louisburg; grading and yard work (See DENTISTS, Page 4)

Marguerite Duke Bunn's Machine Tabulates '55 Auto Accidents in N. C.

By Bette Elliott

Numbers speak louder than words in the Motor Vehicles Department.

The IBM machines in Mrs.

Marguerite Duke Bunn's statistical unit are humming away, flipping out pages of data that'll tell all about how, when, who what and why, auto accidents happened in 1955.

The data, compiled into the most complete report of its kind anywhere, tells the Highway Patrol at a glance where enforcement should be stepped up and who should be stepped on.

Mrs. Bunn is a supervisor who rose through the ranks. A Zebulon housewife, she came to the department in 1949 as a key punch operator, sharing an office with one other girl.

Now, she supervises eight workers, gathers material for reports ranging from one on pedestrian injuries to another on military drivers.

(See STATISTICS, Page 4)

Piano Recital

Mrs. Marilyn Herndon, pianist and instructor in piano in the Wendell School, will be presented in a thirty minute program over WPTF radio Sunday, Jan. 22, at 1:30 o'clock.

Mrs. Herndon is being sponsored by the Raleigh Music Club.

She is a former teacher of music in the Wakelon High School. She is the wife of Kenneth D. Herndon.

Mrs. Herndon is a pupil of Christopher Giles, professor of piano at Wake Forest College.
