**For bigger—better tobacco yields!**

**Knock out nematodes**

WITH EASY-TO-USE  
**D-D®**  
SOIL FUMIGANT

Clear your soil of nematodes now and get bigger—better tobacco yields at harvest. Use D-D soil fumigant.

D-D soil fumigant is an easy-to-use liquid. You can apply it directly to the soil with gravity-flow or inexpensive pressure equipment. Underground it becomes a lethal gas, killing root knot and other harmful nematodes as it spreads. Economical, too—one treatment lasts an entire season.

This season use D-D soil fumigant before you plant. It's available from your local pesticide dealer. See him today.
