TAKE A LOOK AT *Tomorrow!*

If you could turn up the calendar and look into 1960 and beyond, what would you see for your town? Would you see there a neat, progressive, thriving community . . . a community of happy, prosperous people?

Of course, no one possesses this great power, but you can make a quick estimate of your town of the future by surveying present conditions around you. Do you know of a definite plan for progress in your town? Is there an active group working for continued improvements such as clean-up campaigns, improved municipal facilities, an adequate recreation program for young and old? How about all the other projects which help to make your town a more desirable place in which to work and live?

People in over 200 Finer Carolina towns have answered these questions since the start of the Finer Carolina Program six years ago. They can look to a better tomorrow.

You can provide a bright tomorrow for your children and your children's children by your own interest and enthusiasm. In any improvement program YOU are the important person. Lend your support . . . offer your leadership and you can look at tomorrow with confidence.
