Automation Pampers Stock, Aids Farmer

They've put the pig in the parlor and the chicken in perpetual sunshine on the Carolina farm. The result is a better adjusted and more marketable farm product.

Automation has hit the pig and poultry business in a big way—and electricity has supplied the spark.

What has all this meant to the rural electric power market? F. T. Scarborough, manager for Carolina Power & Light Company, reports that the company's 150,000 rural customers are using nearly twice the electricity they used five years ago—a happy development for both the farmer and the stock he's raising.

The pig pen, slops, hog wallow, the chicken roost and old fashioned henhouse are fast disappearing from progressive farms. Automation has taken the animals away from all this.

They're happier for it. The pig didn't particularly like the hog wallow anyway. Today he's show-

ered, watered and fed without stirring from his "parlor."

A hog roots and a chicken scratches, not for fun, but to find minerals they just naturally crave. Now they find the same minerals

A handsome strapping World War II veteran was sworn in June 13 as Commander of American Legion Post 33.

James L. (who is called Bill by his family and friends) Bowling succeeds Charles Wayne Pace as Commander of the local Legion post. Other officers serving under Bowling are John Hilliard, Vice Commander; Bill Perry, Adjutant; Charles Hawkins, Finance Officer; Barrie Davis, Historian; Ralph Bunn, Chaplain; Gilford Bufkin, Sergeant-At-Arms; Dr. George Tucker, Child Welfare Officer; Sidney Holmes, Service Officer; Harry Bissette, Graves Registration; and Raymond Pippin, Membership Chairman.

Bowling said his main objective will be to see that children of fathers who lost their life for their country and service connected disabled veterans' children will get a college education if they want it.

He especially wants to see that no child of a veteran goes lacking if the child wants to go to college. The money is available and if the child wants it to further his education, Bowling aims to see that the child gets it.

He has another aim: to increase the membership of the organization and to see that it functions properly and adequately. Too, there is always the problem of finances, and this must be done with fund-raising drives.

Bowling, 42, is the oldest of three children of Mr. and Mrs. J. W. Bowling of Zebulon. He has two sisters, Mrs. Louise Sherron of Zebulon and Mrs. Annie Pearl Collier of Spring Hope.

He was born in Red Oak, a com-

Local Jehovah's Witnesses to Attend Three Day Meet In Durham

Jehovah's Witnesses of the Zebulon North Unit Congregation are making preliminary plans to attend a three-day training program August 11-13 in Durham, North Carolina, according to Cephas Dunstan, local presiding minister.

The recent phenomenal growth of the world-wide organization of Jehovah's Witnesses especially in the United States, has made necessary the adding of 7 new districts and 52 new circuits in this country alone to care for the increase.

Dunstan said, "The local congregation is a member of one of the newly formed circuits, circuit #36, which will meet in Durham next month."

This Durham meeting will be held at the Central Civic Center Building, corner of Foster and Morgan Streets. Between 400-500 witnesses from the 16 congregations that make up the new circuit are expected to attend.

After discussing the on-coming assembly at one of the regular weekly meetings Mr. Dunstan told his audience, "The various forms of selfishness, including blasphemous international communism, has divided mankind. Christians must be united and keep clear of this Satanic division," he said, "and love is the only force that will help them do this." In support he then quoted Paul's words at Colossians 3:14, NW, "Love is the perfect bond of union."

The purpose of this Durham seminar, sponsored by the Watch-

tower Society, is to give Jehovah's Witnesses and their friends three days of advanced Bible instruction and ministerial training.

All sessions will be open to the public.
