NOTICE OF SALE OF INTEREST IN REAL ESTATE

Under and by virtue of the power and authority contained in that deed of trust made and executed by Mike Weaver and wife, Martha Weaver, to Foster D. Finch, Trustee, dated July 25, 1960, and recorded in Book 1418, page 670, Wake County Registry, I will offer for sale and sell said interest described in said deed of trust to the highest bidder for cash at public auction at the courthouse door in Raleigh, Wake County, North Carolina, on Monday, August 21, 1961, at 12:00 o'clock noon, all the right, title and interest of the said Mike Weaver

and Martha Weaver in the following described property and all improvements situate thereon:

Situate in the northeastern section of the Town of Zebulon, near the Shepard High School, and lying and being in Wake County, North Carolina, one parcel or tract of land adjoining the lands of Avon Privette on the North, East and South; and by North Carolina Highway No. 64 on the West, containing two acres, more or less, upon which is located the dwelling house of the late Dock C. Weaver and Mary Weaver. See deed to Mary Weaver, recorded in Book 843, page 541, Register's office of Wake County.

The interest to be sold in said property is the 1/6 undivided interest of the said Mike Weaver, and said property is sold subject to the following:

1. Deed of trust made by Mary M. Weaver and D. C. Weaver dated November 3, 1943, to A. R. House, Trustee, recorded in Book 899, page 87, Wake County Registry, which secures an indebtedness of \$936.81, together with interest on said indebtedness from date at the rate of 6 per cent per annum.

2. Subject to any and all county and city taxes that may be due on said property.

This 20th day of July, 1961.

Flameless
Electric Heat
Refreshingly
CLEAN

 **yet so reasonable in cost!**

Your own experience assures you that electric house heating is clean. Like your other electric appliances, it is flameless, fumeless, completely free of smoke or soot.

But perhaps you are wondering: "can we afford it?"

The answer is yes. Electric heat is practical and compares in operating cost with that of homes now using flame-type heat.

And this is a major reason for its rapid acceptance. Scarcely heard of five years ago, today

a million homes use electric heat. By 1970, estimates run to at least 6 million homes.

Is this clean, modern heat practical for the home you plan to build, buy or remodel? To help you decide, your CP&L representative can show case histories and operating costs. You'll also find that CP&L's special, low, heating rate can make your selection of flameless electric heat a prudent investment in living comfort.
