Dolphin Griffin claims he is the originator of the rosin baked potato. He told it this way: he spent about half a day with an elderly gentleman some years ago who had been in the turpentine distillery business. This old gentleman would drop sweet potatoes into the rosin and cook them for his lunch or supper. He vowed they were delicious.

An idea came to Griffin's mind, who is very food conscious anyway. Why not use the same method for cooking white potatoes for customers. He tasted the old man's concoction. They were good, very good. And would be just the thing for steaks.

Griffin found the potatoes had a very good consistency. They would stay hot longer and still retain their goodness, quality and special texture.
