Garbage Problems Discussed

Garbage was on the minds of the Town Board Monday night. And it was strewn around.

Sanitation superintendent Jim Moss met with the board to discuss some of the town's problems connected with garbage.

It was recommended to the board by Moss that no garbage can be over 30 gallons in size. Cans bigger present a problem in emptying and loading on to the garbage truck.

Moss also suggested that these can have properly fitting lids, and handles to facilitate handling.

Recommendations were made that garbage cans be located beside the street if possible. It is time consuming for the sanitation men to have to drive into the backyard or around the house to collect the garbage.

No trash or limbs or shrubbery will be collected that has not been placed near the street where it is easier to be picked up. The

truck will not go into a yard or behind the residence to collect such debris.

Some business firms do not have garbage can, it was reported to the board. These firms toss out the trash, refuse and other items, causing unsightliness to the town.

One board member said he could not see how any business man with any civic pride could have the gall to just throw out trash, letting it be scattered all over everywhere.

It was brought out at the meeting Monday night that the majority of the citizens are "very cooperative" in meeting the needs of the garbage collectors. However, some residence owners could be a "bit more cooperative," it was learned.

"Mr. Moss is doing a fine job as sanitation superintendent," Mayor Ed Hales said. "We are very pleased with what he and his force are doing, and with more cooperation they can do even more."

Looks Like Mayor Hales To Run For Office Again

"I don't figure stepping out of a responsibility," Mayor Ed Hales said this week when asked if he planned to be a candidate for reelection for the mayorship in May.

Mayor Hales indicated he would like to be mayor when the major projects outlined during his first administration are completed. These are the water and sewer plants.

Hales has worked extremely hard to get these projects going. He revealed his delight in the recent acquisition of property for the site of the future water plant.

"And I would like to see them completed," he said.

He didn't add, "during my next term," but all indications are that he meant just that.

Garden Club

Pruning and landscaping will be the topic discussed and demonstrated before the Carmen Flowers Garden Club Monday night, January 14, at 8 o'clock. The speaker has not been named.

Members will meet with Mrs. Ferd Davis. Mrs. Theo. Davis will serve as co-hostess.

Spanish Instruction May Start Here

If enough adults are interested instruction in Spanish will be offered for residents of Zebulon and the surrounding communities, it was announced this week.

Dr. Jose L. Rey Barreau, a native of Cuba and a member of Wakelon School faculty, will teach the course. The course will feature the speaking of the language primarily, with some emphasis on reading and grammar construction.

An organizational meeting will be held in the high school auditorium Thursday night, January 10, at 7:30 o'clock.

Adult Farmer Class Meets Monday

A member of the N. C. Department of Agriculture, J. Holman Cyrus, will address the Adult Farmer Class Monday, January 14, at 7:30 p.m. Cyrus is a tobacco marketing specialist with the department. He will use as his topic: "The Tobacco Outlook."

The meeting will be held in the Wakelon Ag building. C. V. Tart is director of the Farmer Class.

GA Queen

The first GA coronation and recognition service in several years at Zebulon Baptist Church will be held Sunday night, January 13, at 7:30 o'clock.

Vickie Tart will be crowned queen at the service. Sixteen-year-old Miss Tart, who is a high school junior at Wakelon School, is the first candidate since 1957.

This will be the third coronation service held at the church. The first candidates were Carolyn Hinton, Zelma Green and Ann Hopkins.

Friends and relatives of all GA Girls are invited to attend.

Shrine Club Formation To Be Discussed Here Next Tuesday

Plans for forming a Shrine Club in Zebulon will be discussed Tuesday, January 15. A meeting for the discussion will follow a dutch supper at the Masonic Hall here at 6:30 p.m.

For several months the Sudan Temple has been discussing with some of the Nobility of this area the possibility of forming such a

club in Zebulon. Potentate of the Sudan Temple, Noble William A. Prince, will be present along with Noble Nelson Banks, Recorder, to lead the discussion and make future plans.

All Nobles, an estimated 35 in the Zebulon area, are urged to be present for this meeting.

Site Bought For Water Plant; 21 Acres Cost Zebulon \$13,000

Poplar Springs Resident Likes To Watch Late Television Shows

"Live every day the best you can and keep occupied with plenty of work," is the philosophy of Mrs. Maggie White Cheves.

A shy, retiring person, the 86-year-old Mrs. Cheves is a resident of the Poplar Springs community of Franklin County.

She says that the church has been one of the greatest influences in her life. She joined Poplar Springs Baptist Church 75 years ago and since that time has been one of its most loyal members.

For many years, it was one of her great joys to make and serve unleavened bread and homemade wine at the Lord's Supper service in the church.

Visiting preachers always had a home at "Miss Maggie's."

Mrs. Cheves is a faithful and loyal attender. She missed just two Sunday services last year. One of these was a rainy day and the other was when she was visiting her twin sister who was ill. Most of these Sundays she walked to church, a distance of about a mile.

Mrs. Cheves' parents were John and Mattie Cheves White. She was born January 5, 1877. Her twin sister is Mrs. Lizzie Dew of Wilson. She was married to Charles Thomas Cheves on March 2, 1904. The couple established their home at Poplar Springs.

Although they were childless, couple gave much of their life helping others by making homes for them. Relatives were cared for and attended to.

Mrs. Cheves does all of her house work. She tends a garden each summer, raising all the vegetables she can use and sharing them with her neighbors. She says she is happiest when she is out of doors, cleaning yards, chopping wood or hoeing in her vegetable or flower gardens.

She reads a great deal and loves television. She sits up almost every night to see the late movie. Up and ready for a day's work at 4:30 every morning, she defies the wisdom of Benjamin Franklin about early to bed, early to rise.

"There are too many things to do and see in the wonderful world of ours to spend long hours in bed," she said.

Best Accomplishments

Mayor Ed Hales pointed out this week two of the biggest accomplishments made during the past year.

The first and foremost one he said is the fact that the people of Zebulon voted overwhelmingly for the bond issue to be used for the construction of a modern water plant and sewer system.

The second biggest accomplishment the mayor named was the hiring of a sanitation head and the buying of a garbage truck. He said he believes that was a big step in the town's progress.

Band Boosters

Parents of members of Wakelon Band Boosters Club will meet Monday, January 14, at 7:30 p.m. in the band room.

Mrs. Maggie Cheves

Two Arrested On Whiskey Charge

Local officers, a sheriff's deputy and Wake County ABC officers arrested two Negroes Saturday night for the possession of non-tax-paid whiskey for the purpose of sale.

Henry Thomas Taylor, about 38, and Vernell Flowers, about 45, were apprehended at their homes on Barbee Street. Police said Taylor had approximately one-half gallon of liquor; the Flowers woman had only a small amount. She was in the process of pouring it out when the officers arrived.

Taylor and Miss Flowers were placed under \$200 bonds.

Sewing Instructor To Lecture Club

Mrs. Daisy Collier, Singer Sewing Machine Co. sewing instructor, will give a demonstration to the Farm Bureau Auxiliary Monday afternoon, January 14, at 3:15.

Mrs. Collier will provide instruction on methods of sewing, planning the sewing projects, and other aspects of the art. She will speak in the home economics department of Wakelon School.

All members are expected and anyone else who is interested in learning more about sewing is invited to attend this meeting.

Officials Urge Citizens Get City License and Save Penalty

It's that time again. Get those city license tags or else. The else is you will be hauled into court.

The licenses went on sale January 1. They cost \$1, and all vehicles which are registered in the city limits of Zebulon must display one.

After March 1, a penalty of \$2 will be added to the initial cost.

Transactions were completed December 31 for the purchase of a site for the future water plant for the town of Zebulon.

Mayor Ed Hales revealed this week that the town purchased a 21 acre site on the south side of the dam at Little River east of the bypass.

The property was purchased from Arthur Clayton of Durham for \$13,000. It is property formerly owned by Rassie Williams.

Mayor Hales said he feels that the town is "fortunate in securing this property."

The town previously dickered with Wilbur Bullock for a two-acre piece of property for the water plant. However, legal technicalities could not be straightened and the option was abandoned. Bullock was to be paid approximately \$3,000 for the property.

The engineer employed by the town has already made preliminary surveys of the newly acquired property for the water plant. It was discovered there would be no rock formations which would hinder the construction of a plant.

Mayor Hales said tentative plans call for letting bids about February 15 for the construction of the \$932,000 water plant. This cost will include new modern mains into the city.

Mayor Hales added that after the construction of the water plant the unused portion of the property on which the plant is built on may be sold along with the tobacco allotment at auction. He said there is approximately two acres of tobacco allotment on the site.

The newly acquired site is adjacent and joins property already owned by the town. The property it joins is the land on which the pumping station is located.

Speaking of the acquisition, Mayor Hales said he is "glad to get this settled."

License Examiner Wants Your Cards

Beginning January 1, application cards for license renewals will be mailed to persons who must renew their driver's license.

Drivers License Examiner C. M. Hocutt said these cards must be brought to him by persons wishing to renew their license. These cards, he said, facilitate the license processing.

Hocutt said with the cards he will be able to examine more people, it will be a simpler process for the examiner and applicant, and it will not be as time consuming as examining was previously.

The licenses have orange numerals on a black background.

The town's general fund was increased by \$642 from the sale of 1962 license plates.

Police Chief Willie B. Hopkins said the ordinance requiring each vehicle owner to display a city tag will be enforced. And how!
