Hospital Report

Wendell-Zebulon Hospital officials said this week there were 114 admissions, 62 operations, eight births and one death during the month of February.

**Pardon us,
please - - -**

while we brag on you!

Yes, YOU, our 383,000 residential customers.

Last year CP&L customers used 31 per cent more electricity in their homes than the average for the whole country.

If this can be translated into the jobs you allowed Reddy to do for you . . . jobs like cooking and water heating, washing and drying, keeping you comfortable and entertained . . . then you've been living above the average.

What's more, you bought Reddy's services at a cost per kWh that was 22 per cent below the national average.

CP&L is proud of its customers . . . and of its own record of supplying you plenty of electricity at a cost that is well below the average for the nation.
