THE AMERICAN CANCER SOCIETY has designated April as Cancer Control Month. Year 'round, cancer researchers work hopefully toward prevention, control and eventual cure of this terrible disease. Year by year they come closer to winning the fight against cancer. This month, you—all of us—are urged to support the work of the Cancer Society by giving our time and our dollars to cancer research. One hundred and five thousand deaths from cancer will occur in the working force of the nation this year. There will be over 200,000 new cases. Cancer will cost business and industry nearly 50,000 man-years of productivity. The answer to this problem lies in the work of doctors and researchers, and in the dollars you give to support their work. Give generously to the American Cancer Society.
