The Randy Creeches were Sunday night supper guests of her mother, Mr. and Mrs. Jessie Hicks, of Knightdale.

Ray V. Tillet of Cranford, N. J., visited his sister, Mr. and Mrs. Roy Brown, during the Easter holidays.

Know
these
men?

You should. They're industry hunters—experts at talking with businessmen north, east, south or west about the many advantages of doing business in the area served by CP&L.

They work with agencies of the state, chambers of commerce, and other groups to help sell industrialists on locating new plants in the Carolinas . . . or expanding the ones they already have here.

They're just two of the friendly folks at CP&L who devote their effort to fuller

development of the area we serve. What they and others like them do is important to us . . . and you, too. Because new or larger plants mean jobs, and jobs mean payrolls that stimulate the whole economy.

During the last 10 years our industry hunters have helped bring into the area we serve new or expanded businesses that cost more than \$600 million to set up, created over 90,000 new jobs, and resulted in annual payroll of almost \$260 million.

It's just one more way CP&L is working to help build a Fine Carolina.
