Route 5, Raleigh, N. C.

The first Gold Medallion house in Archer's Lodge community will be open for public inspection Sunday, April 28.

Belonging to Mr. and Mrs. Bobby Johnson, the 94-foot long ranch style brick veneer home sits on nine-tenths of an acre almost in the heart of the Johnston County area.

There are three bedrooms. The master bedroom is painted a soft shade of blue and has an adjoining shower bath with blue fixtures and ceramic tile. The other two bedrooms are painted in soft shades of pink and green.

The den, which is one of the most attractive rooms in the house, has a crab orchard stone fireplace with a raised hearth, exposed beams, and birch panelling with a natural finish. A cornice runs the entire length of the room over the fireplace. There are lighting

fixtures under the cornice over the fireplace. Wagon wheel ceiling-lighting fixtures are used in this room.

An intercom system connects all the rooms and outside entrances. For year-round comfort the house is heated with radiant cable flameless electric heat and cooled in the summer with flameless electric airconditioning.

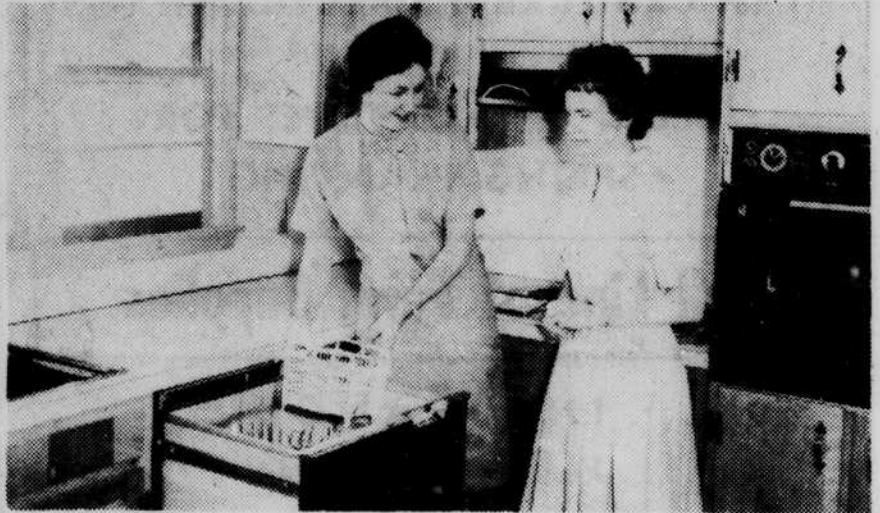

Mrs. Johnson said she will use Early American furniture in the den, kitchen and living rooms and French Provincial furnishings in the bedrooms.

Jesse W. Satterwhite of Knightdale is the contractor and designer of the home.

Mrs. Johnson is the former Stella Bunn of Hopkins Cross Roads community. She is a secretary with Wenco Furniture Co. in Wendell. Mr. Johnson is associated with Nello Teer in Raleigh.

T. F. Scarborough, right, local branch manager of Carolina Power & Light Co., is shown presenting Mr. and Mrs. Bobby Johnson of Archers Lodge the Gold Medallion. Mr. and Mrs. Johnson's Gold Medallion home will be open to the public Sunday.

Mrs. Shirley Blanks, left, Carolina Power & Light Co. home economist, is demonstrating to Mrs. Bobby Johnson the labor saving device, the dish washer. It is one of the proudest possessions in the home, Mrs. Johnson said.

25 YEARS AGO

TODAY

There've Been Some Big Changes Made

The bus at the top was fine for 1938. It made frequent stops, operated on two lane roads, and encountered little traffic.

Today's bus is designed to run hundreds of miles without stops. Its motor is more powerful, yet quieter; and the coach is air conditioned, rest-room equipped.

But one thing is the same—the Trailways spirit of neighborliness and helpfulness to the traveler. This spirit, we feel, is why Trailways has grown in service to your community and the nation.
