**WHEN IT'S A
RED LIGHT
PLEASE CALL US**

Don't get us wrong. There's plenty of electricity and plenty of equipment to serve you.

BUT—a call from you can give us the warning we need to maintain high quality service to your home. That's the purpose of the Red Light on the neighborhood transformer you see here. It indicates that increased usage is taxing the electrical equipment to near-capacity.

The quicker we know about this, the more promptly we can correct the situation and make sure that you and your neighbors have all the electricity you need or want.

May we ask your help? A phone call will do it. Thank you.
