### BIRTH

Mr. and Mrs. E. C. Byrum of Raleigh announce the birth of a son, E. C., Jr., on July 14. Mrs. Byrum is the former Christine Gay of Route 3, Zebulon.

When drying rugs, you wash, hang them on the line with clamp-type trouser hangers. They will lay flat when dried.

**"...I'm glad we chose electric heat,"**  
**says Mrs. Ernest Hilfiker of Black Mountain, N. C.**

"Over a period of years, we have used many different types of heat including gas, oil and hot water. However, our electric heat has proven to be the most economical and satisfactory we have ever had. The operating costs are even cheaper than had been expected.

"The inexpensive installation cost, the quietness of the system, the absence of unpleasant odors are just a few of the many features of our electric heat.

"I can say without reservation, I'm glad we chose electric heat."

Over 6,500 families served by CP&L now know the comfort and satisfaction of living in a home equipped with flameless electric heat. Before buying, building or remodeling, why not get the full story for yourself. Call your nearest CP&L office today. No obligation, of course.
