Entire Peninsula of Yucatan Sticks to Provisional Government—Governor and Military Commander in Flight

(By Associated Press.) WASHINGTON, D. C., May 18.—Adhesion of Yucatan to the provisional government in Mexico City was reported today both in State Department advices and a cablegram to the agents here of the revolutionary government from a special commissioner sent to Yucatan some time ago. The official said the entire peninsula was under control of the provisional government and that the governor and the military commander were in flight presumably to Cuba. A cablegram had taken over the local administration, he said, pending instructions from Mexico City. Revolutionary agents attached particular importance to the report from Yucatan because they said it meant progress, the principal part of that state was the last important part held by the Carranza authorities and had now been surrendered to the provisional government. Carranza who fled before the de facto government's troops into the mountains just west of Jalapa, had fled to the mountains southward into the State of Puebla on May 16th, according to the Mexico City newspapers published yesterday.

TAKE STEP TOWARD BREAKING JAM IN HAULING FREIGHT

Interstate Commerce Commission Calls on State Commission to Help

WASHINGTON, D. C., May 18.—The Interstate Commerce Commission took its first step today toward breaking the freight blockade. Telegraphic appeals were sent to all state railway and public service commissions, urging them to join hands with the government in lifting the burden, while the commission force of inspectors was put to work to help get accurate data respecting conditions at critical points. Practically all the several hundred inspectors were assigned to aid in surveying traffic conditions at important gateways where the flow of freight traffic has clogged. The commission also expected to be fully informed on the terminal situation at all cities by tomorrow night. Members of the commission recognized that the present crisis would provide a real test for the new transportation act and likewise that the emergency clauses must measure up to the claims of their staunchest supporters of freight is again set to moving smoothly throughout the country. With increasing complaints from shippers and requests for assistance from the railroads themselves the Commission is understood to have determined to go into the freight tie-up with hammer and tongs. Officials in great patience on the part of those watching for immediate results since it may require days, and even weeks, to start anything like a resumption or normal transportation service. In first attempts to freeing the maze of rail equipment, the Commission probably will deal with local situations on the various cities through individual roads. This was expected to last, however, only until a general scheme can be worked out by which priorities and embargoes can be removed to restrain the on-rushing stream of commodities waiting at every station. Further suggestions of the railroads were given the Commission at conferences with representatives of the railroad and shippers organization officials. The fuel situation has slowly developed to the danger point, representatives added, and they proposed that the Commission establish a general, although temporary order, for the movement of grain cars westward and a counter movement of coal cars eastward. The Commission in a statement, said it was keeping in constant touch with every phase of the situation through its own representatives in cooperation with the railroads. The American committee has turned over to the Commission its figures on the car supply in order to develop the actual condition in all localities. The G. A. R. had its inception as early as March 16, 1862, when the soldiers of the Third Army Corps organized to keep alive the fraternal spirit their army service had created.

DEMAND ENGLISH FULFILL PROMISE

British Zionists Want Palestine Made National Home For The Jews

LEEDS ENGL., May 18.—The British Zionists are demanding, now that Great Britain has received a mandate in Palestine, that the British government fulfill its promise to restore that country as a national home for Jews. Some of them betray some apprehension that the claims of the Arabs to Palestine may prevent a full realization of the Zionist hope. "We want to begin our great work," says the Rev. J. E. Goller of Leeds. "We are ready to provide money—50,000 pounds or 100,000 pounds is nothing once we are sure of our position—and to arrange for the emigration of Jews not only from England, but from Poland and elsewhere to Palestine. "We must know definitely if the British government is going to stand by its promise, or betray the soul of the Jewish people? The promise was distinctly that of a national home, which means, ultimately, a Jewish state in Palestine. There has always been drawn across the course of Jewish nationalism the red herring of Pan-Arabic ambitions. We declare that we are prepared in Palestine to deal justly fairly, and generously with the Arab problem, but for the Arabs to want as a triple Arab kingdom, ere they have proved their capability of governing a single autonomous unit, is tragically absurd. "If our fears prove to be well-grounded that what shall be flung to us will be but the shadow of a home, then there is a great section of us, of which I am the least earnest, that will arise the cry: 'To your tents, O Israel!' and we shall leave the Jewish problem to be solved by a future and better age, one which shall recognize, if this age does not, that the problem of the Jew in the world is the acid test of civilization," nor Altman and Mr. Gompers.

Mr. Daniels recalled that the Senator in a speech in the senate August 24, 1918 declared that procrastination on the part of the secretary of the navy delayed the termination of the war at least three months and cost fifteen billion dollars and many lives. "The words used by Senator Penrose were almost identical with those used by Admiral Sims more than a year later, Mr. Daniels said. "Either Admiral Sims is a plagiarist and appropriated his views and charges from Senator Penrose or by the new science of the senate telegraph the views of the senator were communicated to Admiral Sims," declared Mr. Daniels. "Penrose comes from Pennsylvania and Sims was appointed to the naval academy from that state. Did they collaborate or exchange mental telegrams?"
