## AUTOPSY SHOWS THAT PRESIDENT CARRANZA WAS ASSASSINATED

### Herrero's Claim That "First Chief" Committed Suicide Not Sustained—Body of Slain President Taken to Mexico City For Burial.

MEXICO CITY, May 25.—In accordance with his oft-repeated request, President Carranza, slain last Thursday morning, was buried late yesterday afternoon in the Dolores Cemetery, where the poorest of Mexicans have for many years found their last resting places.

The body of the slain president arrived in Mexico City at 5:30 o'clock yesterday morning, and was taken to the family home, being escorted by soldiers and a delegation from the diplomatic corps.

Colonel Ruidolfo Herrero, leader of the revolutionary forces on whom has been placed the responsibility for the death of Carranza, had telegraphed to army authorities here that the president committed suicide rather than surrender.

Colonel Herrero has offered to come to Mexico City to prove his assertion that Carranza killed himself.

Carranza Was Assassinated  
VERA CRUZ, May 25.—Reports of an autopsy performed on the body of former President Carranza failed to agree with the claim of Ruidolfo Herrero that the president committed suicide rather than be taken captive. It is asserted in official quarters here.

Surgeons who conducted the autopsy, it is declared, found Carranza had been struck by two rifle bullets, one of which penetrated his breast and the other his abdomen. The bullets entered from in front, and it was the conclusion of those who witnessed the operation that the president had been assassinated. It is said.

THIS LITTLE PIGGIE HAS TWO SQUEALS AND SEES WITH THREE EYES  
BATAVIA, N. Y., May 25.—A farmer living near here has discontinued using his dinner bell. He has a substitute that beats a dinner bell all hollow.

Said substitute is none other than a young pig, but it is an extraordinary pig. It was born with two snouts, three eyes, two mouths and two tongues, and it can squeal out of both mouths at the same time and see with all three eyes.

Three times daily this young porker grows hungry and he doesn't hesitate to raise two loud, shrill squeals when the time arrives for putting on the feed bag. So the dinner bell isn't needed, for this pig was born on a small farm and his squeal can be heard from any corner of it.

Six groups of Atlanta children were examined by the American Red Cross in the course of a dietetic institute conducted by Dr. W. R. P. Emerson, noted child welfare specialist of Boston.
