## NEW YORK STOCKS MARKETS

Cotton Quotations.  
COTTON FUTURES.  
(By Associated Press)  
NEW YORK, July 13.—Cotton fu-  
tures opened steady. July, 39.80;  
October, 33.30; December, 31.65;  
January, 30.95; March, 30.35.

NEW YORK COTTON.  
(By Associated Press)  
NEW YORK, July 13.—The fea-  
ture in the cotton market at the  
opening this morning was the con-  
tinued strength of July contracts,  
which sold to the 40 cent level right  
after the call or the highest price  
touched since last April, and 35  
points above last night's closing quo-  
tations. Three more July notices  
were reported in circulation, but  
there were very few contracts for  
sales. Later months opened steady at  
a decline of 7 points to an advance of  
2 points, but were influenced by near  
month's strength, selling about 2 to  
7 points net higher during the early  
trading, with October at 33.40 and  
December at 31.72.

NEW YORK STOCKS.  
(By Associated Press)  
NEW YORK, July 13.—Substan-  
tial recoveries from yesterday's weak  
close accompanied the active open-  
ing of today's stock market. Oil  
stocks and equipment were the most  
conspicuous leaders, Mexican and Pan  
American Petroleum, Crucible and  
Baldwin Locomotive gaining 1 to 1  
1-2 points. Canadian Pacific and  
Reading again represented the firm  
to stronger falls, with St. Paul, Pro-  
cess and St. Louis and San Fran-  
cisco. Backward features included  
the shippings, coppers, tobaccos and  
chemicals. The strong tone of Uni-  
ted States Steel lifted the general list  
to higher levels within the first half  
hour.

WEEKLY COTTON LETTER  
NEW YORK, July 12.—Moderate  
showers and seasonal temperatures  
characterized the weather of the  
week throughout the cotton-growing  
states, except that temperatures  
were rather high in the northwestern  
portion of the belt. Under the in-  
fluence of these weather conditions  
cotton made fairly good to excellent,  
mostly excellent progress generally.  
The warmer weather and abundant  
sunshine being especially favorable in  
the northwest portion of the belt,  
where cool weather had persisted.  
Material progress was reported in  
cotton from the Carolinas and very  
good advance from Georgia. Pro-  
gress ranged from fairly good to ex-  
cellent in Alabama, Mississippi and  
Tennessee, while considerable im-  
provement was recorded in Louisi-  
ana. It made good growth in Ar-  
kansas, under the influence of mod-  
erate temperatures and light to mod-  
erate showers, while the high tem-  
peratures and scattered rain gave  
generally excellent progress in Okla-  
homa, which was the case also in  
Texas. The condition of the crop in  
Texas now ranges from rather poor  
to excellent, from fair to excellent in  
Oklahoma, and from fair to very  
good in most of Arkansas.

Cotton is still somewhat backward  
in most sections of the belt, but it is  
well cultivated, and the plants are  
fruiting satisfactorily, except in  
places where weevil are numerous,  
but weevil damage so far has been  
generally light in most sections  
where they have appeared. The  
recently warm and mostly fair weath-  
er has been instrumental in holding  
weevil activity in check.  
The government condition report  
issued July 2 broke all previous  
records for improvement during  
June. Since June 25 the weather  
has continued ideal and no doubt a  
further substantial improvement in  
condition will be reflected in the mid-  
monthly reports of the various agen-  
cies shortly to be issued. Every ef-  
fort to sustain prices is being made  
by certain important interests by  
holding a tight rein on the July posi-  
tion, but the market appears to be  
gradually coming under the influ-  
ence of steadily improving crop ac-  
counts and southern hedge selling  
and it is our opinion that a few more  
weeks of good weather may bring  
about a sharp decline all along the  
line.

DEFEAT PROPOSAL TO  
WITHDRAW FROM IRELAND  
(By Associated Press)  
LONDON, July 13.—The proposal  
to employ direct action if necessary,  
to force the government to withdraw  
its troops from Ireland, and cease  
the manufacture of munitions for  
use in Ireland and Russia, was de-  
feated today in the special trades  
union conference, called to consider  
labor's attitude on the Irish ques-  
tion.  
Eight hundred delegates were  
present, representing five million  
workers. The resolution in favor  
of direct action, which was proposed  
by the leader of the locomotive men,  
was defeated by a majority of 716,  
000 votes.

"BESSIE" CHAMP CANINE  
SCRAPPER OF KINSTON  
KINSTON, July 13.—"Bessie," a  
coyote veteran of the Mexican bor-  
der expedition of the army, is the  
superior of any Kinston dog in fair  
fight, and has amply proved it. The  
animal belongs to Everett Brinson,  
veteran of the old Second and 119th  
infantries. At one time she whipped  
two bull-dogs, either of them heavier  
than herself. Brinson ran "Bessie"  
down in Texas when she was a baby,  
capturing several rabbits and prairie  
dogs at the same time. The coyote  
is kept in leash. She endures pet-  
ting but does not seek familiarity.

Frank Trumbull is Dead  
(By Associated Press)  
NEW YORK, July 13.—Frank  
Trumbull, chairman of the board  
of directors of the Chesapeake and  
Ohio railroad, died last night at his  
home at Santa Barbara, California,  
of heart trouble, according to advices  
received here today. He was sixty-  
two years old.

## REPORT FROM THE U. S. DEPARTMENT OF AGRICULTURE CONCERNING FLEAS

### FLEAS

"... The dread Bubonic  
Plague has been found to be  
transmitted largely through  
the agency of these insects."  
... aside from trans-  
mission of DISEASES,  
fleas render houses unin-  
habitable—cause considerable loss among poultry,  
and materially reduce egg production.

In the case of valuable dogs and cats rid them  
of fleas and—where closely associated with man—  
control is of importance. ... The dog flea is one species  
of greatest importance as a household pest.  
Fleas are a sign of uncleanness and are dangerous,  
disgusting and disagreeable.  
Don't endanger your own health and  
comfort or allow your pets to suffer.

### BEE BRAND INSECT POWDER

KILLS  
Ants, fleas, bed-bugs, roaches, water-bugs,  
lice, moths, cotes and many other house-  
hold and garden insects. Kills flies and  
mosquitoes if fanned into the air, or burned.  
Harmless to mammals, birds, pets and  
domestic animals. Non-poisonous.  
15c., 35c. and 65c. everywhere

## Clean-easy in the Clean-easy Way

WHY break your back over a wash  
tub? Why skin your knuckles on a  
scrubbing board? Why make washday  
a day of horrors?

You don't have to. Wash the easy  
Clean Easy way and washday goes by  
like a song! Honest, it's a regular eye-  
opener what that Clean Easy Naphtho-  
leine Wash Soap can do!

You simply boil your clothes in a tub of  
water with a half cake of Clean Easy, cut  
up and dissolved. Stir 'em a bit for ten  
minutes—and every garment comes  
out clean!

Can you beat that? Your washing is  
finished before your neighbor has scrubbed  
half her clothes. And it's a whole lot  
cleaner, too!

Clean Easy lasts longer, because it has  
a firm base and doesn't soften up like other  
soaps. Notice how different it looks. It  
is a truly wonderful preparation for clean-  
ing and sweetening clothes.

Try it—now. Get a cake of Clean Easy  
and learn how to forget "blue" washday!  
Keep your health and sparkle instead of  
wasting it over a miserable wash tub!  
Ask your grocer for Clean Easy. One  
cake lasts two weeks.
