### Unemployment Conference Ends In Disagreement

#### NO AGREEMENT IS REACHED ON UNEMPLOYMENT

Divergent Views Are Expressed by Different Committees As to Course

#### MEETING CLOSES WITH LAST SESSION TODAY

Numerous Reports Considered At the Final Session Which Was Held This Morning

(By Associated Press)  
WASHINGTON, Oct. 13.—Divergent views as to needed economic readjustment for relief of unemployment were presented to the national conference on unemployment by its manufacturers' committee.

Majority members, through James A. Campbell, of Youngstown, Ohio, committee chairman, recommended several sweeping measures, including repeal of the Adamson 8-hour railroad law and the denunciation of any group seeking in its own interests to "restrain economic adjustment."

#### NEW ERA IS SEEN IN BRITISH INDUSTRIES

LONDON, Oct. 13.—England, which has been heckled on every side ever since the armistice by strikes believe it sees the dawn of a new day that promises a solid labor condition foundation for the development of industry.

Many things besides labor conditions have worked against the recovery of manufacturing trades. But give a more stable condition in the shops and among the ranks of the unions, business men are hopeful of meeting other obstacles.

"They believe that the turning point has arrived. The ordinary citizen who thinks of strikes in the form of personal inconvenience, is hopeful of a more comfortable winter than he has known in three years."

#### FARMERS WAREHOUSE HAS FINE SALE

Tobacco Growers More Than Pleased With the Prices They Are Getting

Unusually high averages for tobacco have been made at the Farmers Warehouse this week. Tobacco there during the past few days have been elated at the results of their sale and it is expected that a big break will be on the floor of the warehouse tomorrow.

#### PLOT TO BUILD DRY POLITICAL MACHINE

WASHINGTON, Oct. 13.—Political Washington is laughing and not a few members of congress are inclined to indignation over an adroit move engineered by the Anti-Saloon League

The dark, drunk plot, as it is unhesitatingly called by some senators, was discovered in its budding youth.

Movie people seem to spend heavy mounds in divorce courts.

#### IRISH PARLEY WITH BRITISH PROGRESSING

No Hitch Has Been Taken In Negotiations Thus Far At the London Conference

#### NO STATEMENT MADE AS TO DEVELOPMENTS

Formality Dispensed With and Sessions Are Held on "Conversational Basis"

LONDON, Oct. 13.—Delegates representing Great Britain, and Sinn Fein Ireland, endeavoring to find a basis for setting the Irish question, conferred in two sessions for a total of four hours without the development of a danger point.

At 5 p. m., the Irish officers announced the peace conference was "proceeding smoothly."

A full session of the British Cabinet was summoned to meet, when it was planned by Premier Lloyd George to place before his advisers the proposals submitted by Sinn Fein.

When the conference met Premier Lloyd George greeted the Irish delegates warmly, shaking each one by the hand.

After a few moments of chatting the delegates filed into the cabinet room, where they took their places at the table, the English on one side, the Irish at the other.

While the initial session was in progress about 100 Irish women knelt in nearby streets, amid bustle of traffic, praying for peace.

The first session of the conference today lasted barely two hours.

The Irish delegates and the British envoys left Premier Lloyd George's official residence at No. 10 Downing street, just before 1 o'clock. They were smiling and appearing satisfied.

The police had difficulty in clearing a way through the crowd for the Sinn Fein motorcars. The Irish got a big ovation.

It is learned that the War Office, expecting a demand by the Sinn Fein for the liberation of the Irish prisoners in detention camps, has reported to Downing street ruling against any such action.

It was pointed out that the liberating of the Irish prisoners would free 3,000 officers of the Irish Republican Army.

Only five of the six British delegates were present when the conference opened. The absentees was Austen Chamberlain, government leader in the House of Commons, who is described as "the most conciliatory member of England's 'Big Six.'"

He is suffering a slight attack of illness. The conference was adjourned at 11 o'clock with the full Sinn Fein delegation, headed by Arthur Griffith present.

Premier Lloyd George altered his original decision to open the parley with a speech. Instead he put the conference on a "conversational basis" at once.

"Hurrah for Mike Collins" and "Hurrah for the Irish Republic" echoed in the streets outside the British government buildings.

"Are we slaves?" chanted one group of Sinn Fein sympathizers. When a group of British soldiers passed by the Irish sympathizers set up a cry of "up Sinn Fein."

The plot had its inception in the reorganization of the prohibition enforcement division. Until a few months ago the United States was divided into regional sections of three and four states each, with a regional director at the head of each.

#### Tague Makes Charges Against Ku Klux Klan

WASHINGTON, Oct. 13.—So large was the crowd that gathered to hear the secret workings of the Ku Klux Klan revealed before the house rules committee that it was necessary to shift the hearing from the committee room to the majority caucus room in the house office building.

Several hundred persons, including many women and scores of congressmen not on the committee, filled the room to overflowing. Many of the congressmen remained even after the house had been convened.

The committee was meeting to report on the four resolutions before it providing for a sweeping investigation on the "Invisible Empire" Representative Tague, democrat, of Massachusetts, author of the first resolution, was the initial witness.

Mr. Tague made three specific charges against the Klan, which he demanded a congressional investigation. They were:

1.—That the Klan has "violated and desecrated the law."

2.—That it "deprives citizens of their rights under the constitution and the law."

3.—That the Klan "deliberately violates the law by going out and collecting money to use in violating the law, and in the same manner under a cloak, deprives the government of just taxes."

He continued: "They say they welcome an investigation. Let's give it to them. Let the whole country know what the law amounts to, and whether a Jew or a colored man can walk the streets without fear of molestation."

"Thirty million Catholics in this country stand up and oppose this organization and ask congress to make an investigation. The Catholics, Jews and colored people, against whom this organization arouses hatred and prejudice, will abide by the decision of congress based on that investigation."

#### WILL EXPEND HUGE SUM TO PROVIDE WORK

United States To Give Ten Million Dollars To Aid In Relieving Unemployment

#### WILL CARE FOR OWN EMPLOYEES AT FIRST

But Other Workers Will Be Used Whenever Possible—First Plan of Its Kind

NEW YORK, Oct. 13.—The Finance Committee of the U. S. Steel Corporation yesterday authorized the expenditure of \$10,000,000 by subsidiaries to relieve unemployment.

The \$10,000,000 is to be expended in making extensions to plants. All expenditures will be made only with the approval of Elbert H. Gary, chairman of the Steel Corporation, and President James A. Farrell.

While the \$10,000,000 is primarily to benefit the employees of the corporation, there is nothing to prevent the work being done by other concerns. In all cases where it is possible to do so, however, the work is to be done by employees of the Corporation.

This is the first time any concern has ever set aside such a sum for the main purpose of giving work to railroad men.

The resolution adopted follows: "Resolved: That our subsidiary companies be requested to proceed as promptly as practicable in order to permit to expend up to \$10,000,000 in the extension of their manufacturing plants, the same to be done under the immediate direction of the chairman and president of the corporation, with the understanding that, so far as practicable, the extension be made where the services of their own employees, now idle in consequence of diminished operation, can be utilized and where costs will be fair and reasonable."

#### BERLIN CABINET FIRM ON SILESIAN QUESTION

BERLIN, Oct. 13.—"We stand or fall by undivided Upper Silesia." With this solemn pledge a dozen gravefaced German statesmen—members of the German government—shook hands and then left the chancellery building early today after a conference that had lasted nearly all night.

The conference dealt with the reported decision of the league of nations to reject Germany's claims in Upper Silesia. It was admitted by the ministers "they could not tell whether they would still be members of the republic's twenty-four hours hence."

The extraordinary ministerial council came as the climax to a series of feverish underground developments revolving about the Upper Silesian situation.

**WANT \$75 FOR DOCK RENTAL**

With reference to the dock at which the cutter, Pamlico, is now tied, the owners of the property this afternoon gave out the following statement:

"It was never the intention of the present owners to rent this property to anyone, as it was purchased for strictly residential purposes."

"We are, however, willing to rent this to the Coast Guard Service for the nominal sum of seventy-five dollars per month for one year, without extensions. The wharf property has got to have approximately \$500 spent on it for repairs, and this the owners are willing to do. Considering the investment, they figure that the price for rental is excessively low. Other dock properties in New Bern are renting for two hundred and fifty dollars a month, we are informed."
