### Thousands Pay Tribute to The "Unknown Dead"

#### UNKNOWN HERO LIES IN STATE AS THOUSANDS VIEW THE CASKET

Patriotic Organizations Pay Tribute Today—Other Nations Join in Ceremony

BE BURIED TOMORROW ARLINGTON CEMETERY

Beautiful Inscriptions Are on Floral Wreaths From the Various Foreign Nations

(By Associated Press.)  
WASHINGTON, Nov. 10.—Great and small folk moved in endless procession today through the rotunda of the capitol to pay tribute to the unknown dead, lying in state there as only martyred presidents had known. The day was set aside for it. All who could speak for groups in the land or for the people of the world were free to place their floral offerings at his bier. Hour by hour the heaping flowers about the casket grew mountain-high and spread about the vast chamber. Flowers that bloomed in France were there, and flowers brought in all their beauty from South Africa, 9,000 miles away.

There was not a minute of day unoccupied by those who would do honor to the dead. There was no organization of veterans or patriotic people over the land unrepresented.

British Take Part

Among the most formal of the pilgrimages to this shrine of patriotic valor was that planned by the British embassy. From the embassy building there was arranged a parade, headed by Arthur J. Balfour, head of the British delegation to Washington, and former prime minister, and Sir Abner Godeau, British ambassador. Nearly a score of automobiles formed the procession and two motor trucks carried the flowers.

Inscriptions on Wreaths

A wreath from King George was among them. Lord Cavan acting for the King, is here the legend: "As unknown and yet well known: As dying, and behold we live." There was a wreath too from Canada, its inscription saying: "But that which put the glory of a race into it did was that he did it for his country."

That from Lloyd George said: "Nameless, yet his name liveth ever more."

That from India said: "They never die who die to make the world live."

There were wreaths also from Australia and New Zealand, and all of these, except that from India, were made from flowers grown in English soil, brought over as living plants.

From the grand army of United Veterans of Canada, came a wreath placed by Sergeant Richardson, oldest living wearer of the Victoria Cross. There were flowers from New Zealand and from the army and navy veterans of Canada, came a memorial of poppies that bloom in Flanders fields.

And beside all the civil dignitaries, Great Britain sent by post homage were Earl Beatty, admiral of the fleet and vice-marshal Higgins and others, whose roles in the war in which this unknown soldier died were great. The flowers actually were handled by his comrades of various branches of British service in the war.

#### Liquor Supply Is Said Be Less Than Usual

That there has been a noticeable shortage during the last week or two of the well known beverage, usually referred to by three initials—C. C. C.—is the statement made by several local men who are in a position to keep in touch with "the market."

Several reasons are assigned for this shortage. One of them is that the recent activities of revenue officers has secured the operators of stills and that they are "hiding low," waiting for the campaign to lose some of its intensity.

As a general rule, it isn't difficult to get liquor in New Bern, according to reports, provided that you know where to get it and are acquainted with those who have it for sale. Of late, however, the local "agents" have

#### EFFORTS FAIL TO FORGE VOTE ON AMENDMENT

House Managers Will Consist of Three Republicans and Two Democrats

(By Associated Press.)  
WASHINGTON, Nov. 10.—Efforts of the democrats to force an immediate vote on the acceptance of the senate 50 per cent sur tax amendment today, the house voting after a hot debate to lay on the table a resolution of acceptance offered by Representative Garrett, of Tennessee, the minority leader.

The vote was 200 to 133. The "insurgent" republicans split on the question, a number joining with the democrats against the motion to table, while others voted to table under the terms of an agreement made with republican leaders that they would not insist upon instructions to the conference.

The tax bill with its 233 senate amendments then were ordered to conference and the house managers were announced as follows:

Representatives Fordney, of Michigan; Green, Iowa; and Longworth, Ohio, republicans; Gardner of Texas, and Collier, of Mississippi, democrats.

He resigned from the college yesterday and will return to his home in Fayetteville.

#### U. S. PROPOSALS TO DEAL WITH A LIMITATION OF THE NAVIES

Other Nations Are Not Believed To Have Adopted Any Special Formula

ARE WAITING FOR ACTION BY AMERICA

Few Details Have Leaked Out Relative To Matters To Be Suggested at Meeting

(By Associated Press.)  
WASHINGTON, Nov. 10.—Proposals to be made by the American delegation to the conference on limitation of armament apparently constitute the only suggestion prepared in advance as to ways and means of curtailing naval expenditures without sacrifice of national security. Great Britain is not known to have worked out any formula; Japan is awaiting the American suggestion; France and Italy are more concerned with land forces than navies.

Two days before the conference opens the American proposals remain a closely guarded secret. It is doubtful if any but President Harding, the four American delegates and possibly the highest officers and officials of the navy department know exactly what the proposals are.

This much is known: a definite formula or agreement on limitation of naval forces has been reached by Secretary Hughes and his colleagues. The formula is an entirely practical one. It does not attempt to state any general rule for establishing suitable relative of naval forces between the powers. It does not attempt to fix a common denominator by which all navies could be divided and each power assigned by agreement the number of units it could maintain with world approval.

The American suggestion will deal with things as they are. It will be a plain proposition of ships—built, building or authorized; of naval bases, of the vital element of naval replacement; of the potential naval significance of merchant marine and of concrete existing or planned warships and auxiliaries of naval warfare. Also it is regarded by those who framed the suggestion as a bold stroke for naval reduction, possibly too bold for immediate realization.

Beyond this limited outline of what is going on behind the scenes, nothing has yet been available. Washington is filled, however, with conjecture as to what the American delegation will propose. There are almost as many theories as there are men to talk about it, and their names is legion.

been forced to admit that their source of supply has been on the decrease and that less liquor has been brought to town during the last few weeks than at any other time within the past two years.

Eastern Carolina as a whole has been receiving the attention of state and federal prohibition officers of late and it is known that an unusually large number of agents are at present working in this section. Naturally, they keep their movements secret, so as not to give any advance warning of raids. The still operators, apparently, have received word of the raids that have been made recently in this and adjoining counties and have decided that discretion is the better part of valor. As a result, their output of liquor is sub-normal.
