### BANKERS HOLD CONVENTION PUT ON CHORUS FRIDAY NIGHT

Milwaukee Man is Elected to Head National Association For The Coming Year

NEW YORK, Oct. 4.—John H. Pullicher, of Milwaukee, today was elected president of the American Bankers' Association. Walter W. Head, of Omaha, Neb., was elected first vice-president, and William E. Knox, of New York, second vice-president.

Definite postponement of any payment of the debts owed the United States by European nations, with the exceptions of Great Britain, until the actual amounts which such nations could ultimately pay, has been determined by conferences between the creditor and the debtors, was suggested by the Right Hon. Reginald McKenna, former chancellor of the British Exchequer in an address before the American Bankers' Association convention here today.

Mr. McKenna also gave as his opinion that Germany might be able to pay as reparations in the immediate future about \$1,000,000,000 derived from her foreign balances and the sale of foreign securities. Such a payment, he asserted, would only be possible if all other demands are postponed for a definite period, long enough to stabilize the mark. Future demands at the expiration of that period, he said, must be limited to the annual amount of Germany's exportable surplus at that time.

The committee met but the pastors and laymen, who were supposed to have been present to explain the situation, failed to put in an appearance. There was some misunderstanding about the situation and, as a result, no general action was taken.

### Warning Against Fire

This is Fire Prevention Week. Some excellent precautions to heed with regard to avoiding fire are contained in an advertisement of Griffin, Taylor & Stith, local insurance agents, which appears elsewhere in today's paper. This concern, representing some of the best known fire insurance companies of the country, has written a large amount of fire insurance in and around New Bern. They also represent other lines of insurance.

### Local Fire Department Will Observe Fire Prevention Week

The New Bern Fire Department will observe Fire Prevention week, and the public is urged to co-operate in every way possible. The state loses thousands of dollars annually as result of fire, and this can be reduced to no little extent by more care on the part of the public.

Open flue holes should be protected with sheet iron, or, better, be bricked up.  
Electricity improperly installed is hazardous; lamp cords should not be hung on nails or wrapped around any piping; paper shades should never be used. Confer with your city electrician when changes are contemplated. Do not allow employees to tamper with electrical installations.
