But the friends of Chancellor Wirth were not oblivious of the feeling that he had outlived his usefulness and is now a victim of a policy of indecision and inactivity which found its culmination in the government failure to make arrangements with the allied reparations committee during its visit to Berlin.

MISSION WORKER IS AMONG SEVERAL HELD BY BAND OF CHINESE

GIRL DETAINED IN ASYLUM IS DECLARED SANE

Was Placed There By Guardian To Prevent Marriage Court Finds

Boston, Nov. 15.—Dorothy Gordon, confined in the McLean hospital for the insane, at Waverly, for eleven months by her guardian, William F. Jardine, that he might prevent her marriage to Willard Newell, and retain control of her estate, declared recently that she was sane.

She was seen in her room at the asylum by a newspaper representative, the first person aside from employees of the asylum and members of the Jardine family to see her since she was taken to the hospital.

The girl declared she was being kept in the asylum against her will by her guardian.

Miss Gordon is reported as declaring to a newspaper representative: "My guardian is keeping me here. I am as sane as you are. But there is nothing I can do to get my freedom. You cannot think how helpful I am here."

Attendants of the asylum, relating Miss Gordon's version of her guardian's offer to marry her when she was cured, quote her as saying: "He said he loved me just as he had loved my mother before me. He visited me and took me in his arms. He kissed me. He posed as my devoted friend."

John L. Gardiner, of Baldwin, L. I., N. Y., uncle of the girl, announced that he will hold the McLean Asylum, which is a private institution, strictly accountable for the restraint placed upon her. Records of the institution proved that the girl ceased being confined daily in a straight jacket the very day that her uncle began proceedings to have Jardine removed as guardian.

Dr. Packard, head of the institution, explained that from that time her condition changed and her "suicidal mania" ceased. Officials of the House of Pines School at Norton where the girl studied up to a few weeks before being taken to the hospital, gave the direct lie to Dr. Packard's assertion that Miss Gordon was mentally defective from birth. The school authorities declare they found her normal in every way.

Dr. George M. Kline, State Commissioner of Mental Diseases, who previously had said that if Miss Gordon was sane when sent to the asylum confinement therein was enough to drive her crazy, as she had been placed in solitary confinement and bound rather than provided with a suitable number of nurses, today issued a statement that his department would not conduct an investigation into the case.

The case is under investigation by the court, he explained, and his department will not participate unless requested by the court or the litigants. In case he did conduct an investigation after such a request, he said, he would report only to the court. He said the records of the asylum are private only by summoning an official of the hospital to court.

Attendants at the institution said the girl has told them that Jardine induced her to sign a voluntary petition for incarceration in the asylum by telling her she was a "love child," afflicted with epilepsy.

According to attendants the girl asserted that Jardine promised to get a divorce from his wife and marry her after she was cured.

Dr. Packard declared the girl was not being held against her will. He declared that if she gives three days' notice of a desire to leave and is adjudged sane she will be released at any time.
