Plan Complete Revision Of The State School Laws

RALEIGH, Nov. 21.—Plans for the complete revision of North Carolina's school laws will be discussed and adopted by county school superintendents who will meet here with the State Teachers' Assembly in their thirty-ninth annual session on November 28, according to a statement today by Jule B. Warren, secretary of the organization.

"Preliminary changes have been worked out and printed," said Mr. Warren. "The county school superintendents will be asked for such suggestions as they deem wise and these will be written into the proposed changes. The whole will be presented to the general assembly in January as a basis on which to develop any changes the legislative body may desire to make in the laws regulating the school system."

Complete details of the proposed changes have not been made public. Warren asserted a proposal

to "codify and bring together various school laws enacted during the past twenty years" will be among the most important to be considered.

"In order to get accurate information of the duties of the several officials," he continued, "it is necessary to study all of the laws and amendments that have been passed by the assembly in recent years. The educational commission authorized by the special session of the legislature last December believes that the appointment of the equalization fund of \$500,000, or more, with which the state helps weaker counties, could be changed to advantage.

"At the present time this fund is distributed after a county having levied the maximum tax rate for school purposes fails to secure enough revenue to run the schools six months as required by the constitution.

"On the whole, the commission has announced that it is in accord with

the views of Dr. E. C. Brooks, superintendent of the state department of public instruction," he said.

Addresses by Henry Van Dyke, Elizabeth Farrell, of the New York City Public Schools, and M. C. Garrett, secretary of the Illinois State Teachers' Association, are among the most important events on the program for the general session.

In addition to this program, plans for departmental sessions, at which problems of teachers in the field will be discussed, have been completed. Demonstrations will be given and methods to meet these problems devised, according to Mr. Warren.

"Cooperation among the different colleges for the purpose of attaining their common ideal will be discussed at the branch meeting of the Assembly Financing Colleges," he said.

"The proper cooperation between colleges and night schools of the state so that the courses of study of high schools will correlate with those of the higher institutions also will be up for discussion."

The program worked out for high education by Dr. T. C. Anick, of Elon College, and his associated officers will be presented and followed by the assembly departmental attendants.

DELIVERIES ON COTTON MADE IN STATE NOW

Continues To Be Delivered At Almost Same Average As During October

RALEIGH, Nov. 21.—Instructions to make deliveries of cotton were sent this week to members of the North Carolina Cotton Growers Co-operative Association, in order that arrangements may be made for the second advance of \$25 a bale which the board of directors have set for December 15.

The board of directors has instructed the officers of the Association to take legal action against members of the Association who have willfully violated their contracts, and it is announced that this will be done as soon as the data has been collected. It is not believed by the officers of the Association that there has been any considerable number of willful violators of contracts.

Cotton continues to be delivered at almost the same daily average as in October, and this constant stream of cotton coming into the Association has been a remarkable achievement on the part of the co-operatives. The members of the Association have done their part by giving their loyal support to those charged with the sale of cotton, officers declare.

The cotton co-operatives have been greatly handicapped during the rush season because of lack of adequate quarters in which to work. The headquarters staff moved last week into its permanent quarters here, and is now busily engaged in clearing up the mass of work in connection with the handling of many thousands of bales of cotton.

The rush season for deliveries is expected to continue until well thru December, officers state.

SAYS CALOMEL SALVATES AND LOOSENS TEETH

The Very Next Dose of This Treacherous Drug May Start Trouble

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it perfectly harmless and can not salivate.—Ad.

SHIP'S OWNER IS ARRESTED

Negligence Charged Against Owner And Master of Craft Which Sank In Pacific

(By Associated Press)
MEXICALI, Lower Cal., Nov. 21.—A. Libreau, owner, and Captain Gomez, master of the steamer which capsized Sunday on the Gulf of California, 50 miles south of Mexicali, with a loss of life estimated at eighty were to be arranged here today on a charge of negligence.

Last reports said 21 bodies had been recovered and that search was being made along the coast on both sides of the gulf for others. Burials followed closely the recovery of the bodies. Soldiers dug a long trench above the beach line and the only rites were military.

CANADIANS SLOP AROUND IN ICY WATER AFTER WHISKEY

Simcoe, Ont., Nov. 21.—Above the wave tossed beach near Port Rowan, on Lake Erie, where the steamer City of Dresden went aground and was abandoned with its cargo of 500 cases of Canadian whiskey Saturday afternoon, a line of motor cars awaited today while their occupants waded out into the icy water to fish for bottles of liquor.

The ship, which was condemned 20 years ago when her captain, J. S. McQueen, of Amherstburg, bought and refitted her, broke up rapidly and hundreds of bottles of whiskey drifted to shore where gangs of men gathered them up and carried them to waiting cars.

It was learned today that Captain McQueen's son was drowned while trying to assist another member of the crew when the ship was abandoned. The vessel was on his way to Port Huron when a violent storm came up and battered a bad leak in the ship's hull, which rapidly filled with water.

FARMVILLE TO INAUGURATE A CURB MARKET

Curb Market Idea Appears To Be Winning Favor Rapidly in Eastern Carolina

GREENVILLE, Nov. 21.—That curb market idea for the assembling of country produce of all kinds is fast taking hold of the attention of Pitt county folk is evidenced by Farmville coming into the ranks.

At the last meeting of the Farmville Rotary Club, after the matter had been presented by Jno. T. Thorn, 100 per cent co-operation and support was pledged the Pitt County Chamber of Commerce as they put into operation a curb market for Farmville.

It was stated at this meeting that the Chamber of Commerce and county agent would make this project a reality the earliest possible date.

While the project will be pushed to a conclusion as soon as possible, it must be borne in mind that some time will be required to get all the details worked out. It would be very unwise to set an opening date until everything was in readiness.

REPORT IS ISSUED ON COTTON GINNING

WASHINGTON, Nov. 21.—Cotton ginned prior to November 14 amounted to 8,860,857 running bales, counting 151,578 round bales as half-bales and including 17,715 bales of American-Egyptian and 4,737 bales of Sea Island, the Census Bureau announced today.

Ginnings prior to November 14 this year by states include: North Carolina, 688,562; South Carolina, 464,121; Virginia, 18,528.

The road to wisdom has never been mapped.

DR. BELL'S Pine-Tar Honey

Those hacking coughs that hang on and on annoying business associates through the day and finally at night—they soon respond to Dr. Bell's, the purest form of pine-tar honey. Mothers buy it to break up the coughs and colds of their children. It loosens the phlegm and relieves sore, inflamed throats. At all druggists.

Refuse substitutes. PINE-TAR HONEY is only on Dr. Bell's.

THREE NECESSARY

When the life of a loved one is at stake the doctor and nurse must have medicines. The Great Physician put all three here for the purpose of curing disease and allaying pain. Each is useless without the other; every drop and grain of medicines ordered by the doctor, to be administered by the nurse must be added by the pharmacist—that is our job—you can depend upon our pharmacists doing their part with skill of a master-builder. They are dependable.

BRADHAM'S DRUG STORES
Prescription Specialists.

NOT THE SAME
Doctor: Aren't you the same person I treated last year?
Ex-Patient: No, not the same—and never will be again, I fear.

Bruises & Strains
try Sloan's

Reduces swelling
—starts blood circulating

The pains of strains and sprains are due to congestions. Just quicken the circulation, and the inflammation and pain subside—disappear. Without rubbing, Sloan's penetrates and breaks up the painful congestion.

Sloan's relieves rheumatic pains, soothes neuralgia, warms and comforts tired, aching backs. Loosens congestion from colds in chest. Keep it handy.

Sloan's Liniment—kills pain!

Baker Sets New Record

Los Angeles, Nov. 21.—"Cannonball" Baker, holder of several motorcycle records, made a trip from New York city to Los Angeles, 3,368 miles, on 40 gallons of gasoline and five gallons of lubricating oil, he said recently. The running time for the trip was 179 hours, 28 minutes, the average speed being 20 miles an hour.

Kerr Wants to Come Back

Fort Worth, Tex., Nov. 21.—Dick Kerr, former star pitcher of the Chicago American League White Sox, in a message received by friends here stated he has applied for reinstatement, following a year's holdout because of a salary difference and expects Judge Landis to permit him to rejoin the club at their training camp this spring.
