New Concern Is Known As the Norfolk, Baltimore & Carolina Line.

L. G. Hogshire, of the Norfolk-Baltimore Carolina Line, Inc., arrived in the city this morning for the purpose of making final arrangements for the start of the new boat line between Norfolk and Washington and New Bern. Mr. Hogshire stated to a representative of the Sun-Journal today that the first steamer would sail from Norfolk on Friday, January 2. This steamer is the Chelsea, a vessel 125 feet long, 25 feet beam and with a capacity for 200 tons of freight. Regular schedule will be maintained, the boat leaving Norfolk Thursdays at 8 p. m. and leaving New Bern Fridays at the same hour. For the three being, no boat will be operated to Baltimore. As the company finds out the extent of cooperation which will be displayed by local shippers, however, it is expected that another craft will be put on within a very short while. The Chelsea will connect Norfolk with Washington and New Bern. Mr. Hogshire stated today that the shipper in Washington, New Bern, Kingston and other points had promised to support the line and he believed they would live up to their word. He expects to see the Chelsea loaded to her capacity as soon as merchants find out the saving that will result to them in freight rates through shipments over the new line.

REID REPORTED TO BE SLIGHTLY BETTER TODAY

Physicians Say That Condition of Motion Picture Star Is More Encouraging

PULSE HAS GONE DOWN FROM ITS HIGH MARK

Ministers of Los Angeles Ask For Investigation of the Report on Drugs

(By Associated Press)
LOS ANGELES, Dec. 19.—Wallace Reid was resting easily today with an overnight decrease of temperature, according to his wife, who is in a Hollywood sanatorium after a nervous breakdown.
Reports available early today from the sanatorium where Wallace Reid, motion picture actor, is suffering from a break-down which physicians ascribe to complications which came when he broke away from the use of whiskey and narcotics, indicated an improvement in his condition. Reid's physician said the actor's temperature was nearly normal and that his pulse had dropped from 120 to 112. They added Reid was able to take a little nourishment. The physicians said Reid's decline followed his abandonment of the use of drugs and liquor, but the specific ailment which threatened his life was influenza.
If the actor fails to recover, it was added, influenza would be the cause written on the death certificate.
The Methodist Preachers' Association of Southern California planned to ask the city council today to appoint a commission of men and women to make a thorough investigation of the use of habit-forming drugs in Los Angeles.

GRENADE FOUND NEAR BUCKINGHAM PALACE

(By Associated Press)
LONDON, Dec. 19.—A disturbing discovery was made at the rear of Buckingham Palace today when a grenade bomb was found in an ash-cart which had just arrived to remove the palace refuse. How the missile got into the cart is a mystery and the police this afternoon were examining it to see if the charge had been removed. The authorities say they attach no special importance to the find, believing the grenade was thrown into the cart while it was on the way to the palace by someone who merely wished to get rid of a dangerous souvenir. The stepping stone to the altar is a diamond.

Hays Says That Reid's Case Is One To Be Prayed Over

LOS ANGELES, Cal., Dec. 19.—"If Wallace Reid's condition, as a result of indulgence in narcotics, is such as has been reported to me, it's a matter to be prayed over."
Thus today, in his suite at the Ambassador Hotel here, did Will H. Hays, directing head of the Organized Motion Picture Industry, summarize his thought. He continued: "Again, if Reid's condition is such as reported, the poor boy should be dealt with as a diseased person—not be censured, shunned. Rather, let us all sanely and sympathetically try to restore him to health."
Not His Job, He Says
Mr. Hays said it would be presumption for him to interject himself into a war here upon the traffickers in narcotics. He said:
"You have Federal, State, county and local authorities to see that narcotic laws are obeyed. Would it not be appearing casting a reflection upon their efficiency were I to take it upon myself to try to execute the law?"
"But I am here always to cooperate like any good citizen in seeing that vice is suppressed and vicious agencies and persons kept within bounds."
"I cannot overlook the fact if anything is being done to undermine the morale of the people in the industry I represent. But would the head of any great industry personally act as policeman, if the people in that industry were being demoralized by subjected to influences, demoralizing to their well being and efficiency?"
Interest Incidental
Mr. Hays explained that whatever official notice he might take of Reid's case, or any other, would be incidental to his comprehensive programme for the building up of the Hollywood community. He said:
"We are traveling the highway to better things in filmdom. The pictures already are improving noticeably; soon there will be a model Hollywood, thinking of it as an industrial community, and I have faith that unfortunate incidents will be things safely of the past."
"This is my Christmas message, if you so wish, to Hollywood, to Los Angeles, to all the world interested in motion pictures."

DAUGHERTY CASE MOVING SLOWLY

Principal Prosecutor, Representative Kellar, Is Still Absent from Scene

WASHINGTON, Dec. 19.—In the absence of the principal prosecutor, Representative Kellar, republican Minnesota, hearings before the House Judiciary Committee on impeachment charges against Attorney General Daugherty moved forward today at a slow pace.
Representatives Woodruff, of Michigan, and Johnston, of South Dakota, republicans, were before the committee by invitation of Chairman Volstead, but Mr. Johnston said his charges in the House last April regarding war frauds were directed solely at the war department, and Mr. Woodruff was not ready to proceed.
The Michigan member said some of the charges he might present would be of impeachable character but he could not form definite opinion until he had examined documents at the department of justice.
Both Mr. Justice and Mr. Woodruff said there had been a decided change in the situation since last April when the latter charged the Attorney General with a failure to prosecute war fraud cases.
Mr. Woodruff said action had been taken in six of the eight or nine instances he had mentioned while Mr. Johnston voiced the belief that considering the amount of re-organization necessary and the mass of information to be digested beforehand, the Attorney General had moved with reasonable promptness.

Five Gallons of Liquor Found On Farm; Owner Unknown

In some mysterious manner the transportation of a 5-gallon keg of liquor failed to be carried out according to schedule and somebody's Christmas liquor today is reposing in the city jail yard as a result.
The whiskey was found near the farm of H. C. Armstrong on the Trent Road. It was discovered by one of the men that worked on the place. He loaded it into a wagon and brought it down to Mr. Armstrong's store. Mr. Armstrong notified the police and the police took it in charge.
It is supposed that the manufacturer of the liquor had had an agreement with someone to leave the whiskey at a certain place and that it was found before the purchaser could get his hands on it.

County Employs Veterinarian To Begin His Duties At Once

As the session of the county commissioners, held this afternoon, Dr. B. E. Moore, was employed by the county to give part of his time to hog vaccination and tubercular tests of cattle at a salary of \$150 a month, he to pay all his expenses. A discussion of hog raising preceded the action during the course of which several citizens present expressed themselves as favoring the appointment of a man to do vaccination. It is believed that as Dr. Moore's work begins to show results that he will be selected to give his entire time to the county's interests. His present employment is for one month only. It is expected, however, that he will continue the work for some time.
"There is no single agency through which the farmers suffer a greater loss than on account of worms and cholera among their hogs," said Commissioner Grantman, in discussing the employment of Dr. Moore. We need a man to help the farmers in stopping this loss. It is true that some of the farmers must be educated to hog cholera vaccination and tubercular tests for their cows, but you can't have education of any kind unless you have a teacher."
With respect to the vaccination of hogs, it is stated that the farmer pays for the serum and that is the only charge which he has to bear. There also is a slight charge for some of the material used in tubercular tests. Dr. Moore will begin his new duties tomorrow.
The board took up a number of other matters of routine interest.
