SALE CONDUCTED BY C. T. MORRISON. DEC. 6, AT 10:30 A. M.

### SOME OF THE WAR ACTIVITIES OF THE FORD MOTOR CO.

Without going into particulars the following items will give some idea of the value the Ford Motor Company was to the government of the United States in its call for the sinews of war:

More than 2,000,000 steel helmets; order for 5,000 12-cylinder Liberty motors. Over 1,500 had been delivered when the armistice was signed, and the company was just striking its producing capacity; 10,000 caissons, mainly for 155-mm. guns, something over 8,000 delivered; order for 112 "Eagle" boats, 200 feet long, 25 feet beam; something like 25 delivered, when the order was reduced to 62; the balance will be finished by the first of August; more than 8,000 trucks; more than 25,000 regular Ford cars; more than 6,000 ambulances; 400,000 cylinders for Liberty motors. Because of the superiority of the work on this article the government placed the order with the Ford Motor Company to make all the cylinders for all the Liberty motors made in America. The original order was practically completed when the armistice was signed, and a new order for 300,000 had just been entered. 700,000 bearings for the Liberty motor. Here again the government recognized the superior quality of the bearings made by this company, and placed the order with it for all the bearings for all the Liberty motors made in the United States. On this order over 400,000 bearings had been delivered. 700,000 cylinder forgings for Liberty motors. Once again the government recognized the superiority of Ford work and placed orders with the company for all the cylinder forgings for all the Liberty motors made in America. Over 400,000 had been delivered. A large volume of experimental work was done in building three-ton military tanks, and the government had just placed orders for 15,000 of the small, two-man military tanks, and 3,000 of the six-ton military tanks. Cancellation came before more than a dozen or so tanks had been delivered, but the foundations had been laid and the superstructure almost completed for a enormous building it which it was intended making tanks alone. Of course this building comes in mighty useful in the enlargement of the Ford business.

Motion picture reels in behalf of Liberty loans, Red Cross and patriotic fund were made by the company and supplied to the government in sufficient quantities to serve the entire United States in motion pictures. Motion picture reels in volumes sufficient to serve the armies of the United in France, Italy and Palestine were furnished by the motion picture department of the Ford Motor Company.

The company also did more than \$1,000,000 of work in the production of special devices for the naval department of the British government.

It also furnished the government with 275 skilled mechanics for work in France, and also, through its chemical laboratory, co-operated with the manufacturers of gas masks

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were "National Biscuit," recalling pleasantly my own tasty Uneeda Luncheon. I liked her, and settled comfortably as she spoke again of the cream and ears busy.

"Between the dark and daylight, she was quoting, 'there's always a bit of pause'—and she was happily, seems waiting and listening—for the children. Since they were tiny things, I've given that hour to my babies. First I had to feed them. Then, when they were old enough to toddle, I had to feed them.
