RESOLUTION DECLARING WAR AT END PASSED BY HOUSE

The Republican joint resolution declaring the state of war with Gertrial problems likely to enter into the many at an end and repealing most of the war-time legislation was adopt-

ed last Friday by the House, and is now with the Senate for action. The vote on the passage of the peace resolution was 242 to 150. Twenty-two Democrats joined with the Republican majority in supporting the resolution and two Republi-cans voted against its adoption. The vote ended a two-day battle of words in the House. It was marked throughout by sharp partisanship except for those on each side who broke away from party lines to join the opposi-

Former Speaker Clark, Representative Kitchin of North Carolina and Representative Flood of Virginia took part in the fight on the Demo-cratic side, while Representative Mondell, the Republican leader, who closed the debate, received a warm greeting from his party colleagues. Representative Kitchin's speech aroused the Democrats to an outburst of cheering as he assailed the Republican membership, charging them with "pretense and hypocrisy," and challenging them to submit a plant. straightout proposal for repeal of Rec war-time legislation if they were sincere. At the close of his speech Mr. Kitchin suffered a collapse resulting from what was said by his physicians to be a slight stroke of paralysis. Representative Mondell later expressed the sympathy of the House for Mr. Kitchin, the members stand-

ing while he spoke.

Opposing the resolution, Representative Flood of Virginia declared the treaty would have been ratified if the Republican majority in the Senate had not been "obtained by the purchase of a senatorial seat in Mich-He characterized the Newberry case as the "most shameful and disgraceful debauching of an electorate that has ever occurred in this country.

It has become the "plain duty of Congress" to declare "the admitted fact" that the war with Germany was ended, the report said. "There has been," it continued, "a

complete suspension of hostilities on both sides without any intention of resuming them. Congress is clearly Defending the right of government resuming them. Congress is clearly exercising powers which are within the constitutional rights in recognizing and declaring that the war is at an end. As by the resolution of there should never be occasion to April 6, 1917, Congress officially recognized the fact that war had been thrust upon us, so now it becomes the duty of Congress to give official recognition to the fact that the war is ended. Moreover, the general wel-fare of the United States imperatively demands that all uncertainty upon this subject shall cease and that the extraordinary war powers of the government shall be vacated and set

"The laws conferring extraordinary powers upon the President for the duration of the war are still in full force and effect and constitutional rights are still suspended. Many of these laws are extremely drastic, and could be justified only as war necessities; but since war has creases would have ceased the justification for these laws greater gain in taxes than the 10 per no longer exists.

"The effect of this resolution on all of the war legislation will be precisely the effect that the ratification and proclamation of the treaty would have had. Laws that were to be in force for the period of the war would hav ceased with the President's proclamation; under this resolution they will cease with the date of its passage. On the other hand, laws that were to continue in effect for a time after the ratification of the treaty of peace will continue in effect for the specified time after the passage of this resolution. The therefore, has no effect upon existing laws other than the effect that the ratification of the treaty would have had.

"Section three provides for the resumption of reciprocal trade relations between Germany and the er's livestock and farm equipment United States for a period of 45 will be more highly burdened heredays, and further provides that such after. reciprocal trade relations shall be permanently established when the President has ascertained and announced that Germany has declared a termination of the war and has made the waivers and renouncements "The maximum co on behalf of itself and its nationals rate will be reduced. which are specified in said section. The placing of these conditions on the permanent resumption of trade with Germany is a reasonable exercise of the power vested in Congress by the constitution 'to regulate com-merce with foreign nations.' In making certain legislation contingent making certain legislation contingent on a fact to be ascertained and announced by the President, this paragraph follows precedents established in previous acts of Congress and especially section three of the acts of Oct. 1, 1890 (the McKinley tariff act), which was sustained by the Supreme Court in the case of Field vs. Clark, 143 U. S. P., 649.

Acceptance of the principles enunciated in the reply was regarded by political observers in Washington as determining organized labor's support of candidates in the November elections. These principles include: Acceptance of the eight-hour day and the six-day week, with Saturday

half boliday. Recognition of American wage earners' right to organize in accordance with their judgment.

Continued exemption of labor organizations from anti-trust laws. Acceptance of the right of employees to choose their own representatives from within or without the

Maxwell has just issued a statement in the form of answers to ten questions about the revaluation act, in response to inquiries made by farmers and turned over to Mr. Maxwell by Editor Clarence Poe of the Progressive Farmer. In summarizing his replies to the farmers' ten questions Mr. Maxwell says:

"The gist of the whole matter is

out revaluation the ordinary incent increase to which the revalua-

tion act limits the State. "There were serious inequalities under the old system. One hundred dollars worth of property in one county might bear half as much, twice as much, or three times as much, of the tSate burden of taxation as \$100 worth of property in an-

other county. Thei was not fair. "I tis not likely that revaluation will increase the farmers' burden. Other classes of property have increased as much as farm lands. TWO ARE DEAD

Albert and Arselle Dawson, 4 and 5 years old, were dead, and Betty Hayes, 11 years old, a cousin, was unconscious when found Saturday afternoon at their home in Durham, locked in a large trunk. They were discovered by their grandmother after having remained in captivity several hours. The children were left at home by their grandmother when she left early in the morning to go to work. Betty Hayes, the older of the children, upon regaining consciousness, stated that they entered the trunk while at play. The lid to the trunk while at play. The lid to the trunk fastened automatically when they lowered it and their efforts to obtain freedom were futile.

COMPULSORY MILITARY TRAIN-ING SHELVED IN SENATE Compulsory military training was

shelved last Friday in the Senate, and, after a plan for voluntary training of youths was substituted in the army reorganization bill, a fight was started to eliminate this and strip the bill of all training provisions.

The Senate voted 46 to 9 to substi tute the voluntary for the compulsory method. There was no direct vote on the compulsory plan. Its defeat was conceded, and, to provide for some method of training American youths, many advocates of compulsory training supported the amendment of Senator Freylinghau-REVALUATION ACT QUESTIONS

COLBY'S APPOINTMENT IS CON-

FIRMED BY SENATE The nomination of Bainbridge Colby as secretary of state was con-firmed late Monday by the Senate. It was understood that no objection was raised to confirmation of the nomination, which has been the subject of extended secret hearings by foreign relations committee. There was no record vote on confirmation. Senator Lodge, Republican and chairman of the foreign relations committee, presented Mr. Colby's name with the favorable recommendation of the committee, and Senator Jones, Republican, of Washing-ton, immediately asked for a vote. There are a number of bills pending providing for additional appropriations, but as yet none of these has passed. The secretary of agriculture, in his last annual report, recommended that additional appropriations be made to continue the policy of Federal aid already inaugurated. You will readily see, therefore, that the question of future appropriations to North Carolina depends entirely on the action of

BONDS MAY BE EXCHANGED FOR PERMANENT ONES

The treasury has completed arrangements for the exchange of temporary Liberty bonds issued during the loan campaigns for bonds of per-manent form with interest coupons to maturity attached SecretaryH ouston announced Monday.

Exchange of temporary third loan bonds began on March 15 all banks being authorized to make the transfer for the treasury. Within the next month officials expect to be ready to exchange permanent bonds of other Liberty loans except those which still have one interest coupon to come due. They need not be exchanged until after those coupons

mature the latest date being Oct. 15.
Secretary Houston urged again that holders of first and second 4 per cent bonds make their exchanges early since the conversion privilege on these bonds still is open and it is desired that the conversion to the highest interest rate and the ex-change into permanent bonds be accomplished simultaneously. All registered bonds are in permanent form and Mr. Houston appealed to holders of temporary bonds wherever possible to exchange them for registered bonds thus making a further transfer unnecessary and providing safety for the owner.

ATTORNEY GENERAL IS AFTER COAL PROFITEERS

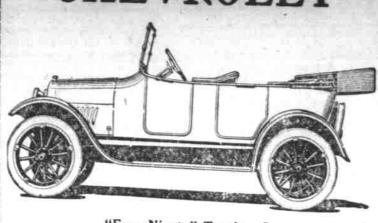

Attorney General Palmer has in-structed Federal district attorneys to receive and consider complaints of profiteering in bituminous coal "which may arise in your district un-der the Lever act."

Mr. Palmer's telegram was pre-

pared after some bituminous coal oprators had stated publicly that the new wage scale agreed on under the terms of the award by the coal strike settlement commission would result n an increase of from 60 cents to \$1.25 a ton on coal. Pointing out that the total increase in wages had been estimated at approximately \$200,000,000, Mr. Palmer said that f this entire amount were "added by the coal operators to the price i would only make an increase of 40 cents a ton. If, however, the operators absorb the 14 per cent increase which became effective in December, ther ewill be left only \$97,000,000 to be passed on to the consumer. this event the increase in the price of coal at the mine should amount to
