GUARD AGAINST TYPHOID

For every day in February there was a death in North Carolina caused by typhoid fever, says the official bulletin of the North Carolina health department.

The country is experiencing an unusual spring. This means a longer fly season and a greater danger this year from typhoid. It has been two or three years since the county has had a campaign for vaccination against typhoid.

The matter of a county-wide campaign should be taken up by the county commissioners as early as possible. It should be put through with as little delay as possible.

The peak of typhoid incidence is reached in August, and ordinarily the summer months, which are also the fly months, are considered the ones when typhoid is most dangerous.

Several counties have already planned to have anti-typhoid campaigns this spring and summer, and some of these are doing the wise thing and starting early.

Wherever county campaigns are to be waged they should be started as early as possible. Where there are no county campaigns the individuals should at once take advantage of the safe protection that is offered through their local physicians or health officers.

Beginning April 19, every citizen who buys a gallon of gasoline for the propulsion of his vehicle will pay a tax of one cent to build and maintain the roads over which he is about to drive.

Unlike the tax that is levied by the Federal government upon the national drink, the tax will be collected at the source of supply, and the purchaser will not have to hunt through his pockets to see if he has an extra penny.

The wholesale dealer will pay the tax to the State, and the charge will be handed down through the retailer to the consumer. Gasoline is expected to rise from 30 to 31 cents a gallon.

Fifty million gallons of gasoline were burned by Tar Heel motorists during the past year, according to the estimates of the authors of the State road law, and a cent a gallon would raise half a million dollars for the general road fund.

Rebates are provided for the users of gasoline for purposes other than automobiles. Industrial plants using gasoline for motive power may make application for the rebate of the tax.

Details for the collection of the tax are left largely to the discretion of the automobile department in the wording of the law. J. E. Sawyer, head of the department, has worked out a system of collecting from the wholesaler rather than dealing direct with the retail dealer, thus eliminating a vast amount of bookkeeping and the necessity for a corps of inspectors to keep check on reports made by individual dealers.

Collection of the half million dollars is expected to be effected at a cost of not more than one per cent of the total collections.

Arrangements have also been perfected by the department for the collection of the annual license fees for automobiles in the State, aggregating, according to the estimate, \$2,250,000 for the year.

License fees, together with the gasoline tax, will bring a gross revenue to the State road fund of approximately \$2,750,000. It is estimated that 200,000 licenses will be issued during the year, as against 147,000 for the year drawing to a close.

Four car loads of license tags have been bought by the department at a cost of 11.5 cents each. The tag this year will be the same size as last year's tag, with black lettering against a white background instead of the yellow as now used.

Mr. Sawyer is organizing his staff of clerks for the tremendous rush that will be occasioned when the present licenses expire and a new issue is required. More than 50 clerks will be at work for six weeks.

Under the schedule of fees charged last year the sale of licenses netted the State \$1,800,000. Somewhat higher rates, and the increased number of cars in operation this year, will run the figures beyond the two million mark.

The schedule this year is as follows: 24 h.p. or less, \$12.50; over 24 and less than 30 h.p., \$20; over 30 and less than 35 h.p., \$30; over 35 h.p., \$40.

TRAINING SCHOOL IS TO HAVE TWO TERMS

First Term to Begin May 31; Improvements Being Made; Mr. Linney Is Endorsed

(By J. M. Downum) The summer school for the Training School will this year include two terms, the first beginning May 31 and ending July 8, the second beginning July 12 and closing Aug. 19, just the week before the regular fall term opens on Aug. 23.

There is no better place to spend the hot day of summer than in Boone. This is especially true for those from the eastern parts of the State during July and August. They can at a small cost enjoy six weeks in the mountains while preparing themselves for better work.

The school team played two ball games the past week, one against the town team and the other against Bamboo, the score standing in the former 14 to 1 and in the latter 6 to 4, both in favor of the school.

Col. Rivers of the Democrat is too modest to speak of it, but he is remodeling and greatly improving his home in Boone. If he were not an editor I would say that "none but the rich can afford such."

Messrs. Greene and Bingham, the Edison men of Boone, have a new building in which to display their large stock of Edison supplies, and this building has been just about completed from the ground within three weeks.

The many friends of Hon. F. A. Linney, without regard to party, are hoping that he may secure the appointment as judge to succeed Judge Pritchard, in spite of some opposition by some who have no good cause. This section is solid behind Linney.

"The Livingston Club," the young ladies' missionary society of the Methodist church, on the past Saturday gave in the court house an interesting entertainment, entitled "A Trip Around the World," which was very much enjoyed by all who took part in the trip.

The costumes and decorations at each place were appropriate, and appropriate refreshments were served. A nice sum was secured for the new church fund.

HUGHES FOR RIGID POLICY TO RESTRICT IMMIGRATION Rigid restriction of immigration was recommended by Secretary Hughes in official documents transmitted to Congress. They were interpreted by House and Senate leaders as reflecting increased need for the immediate passage of the immigration bill reported last week by the House committee, limiting admission of aliens for 14 months beginning next May 10, to 3 per cent of each nationality resident in the United States in 1910. Debate in the House began under special rule.

"Our restriction on immigration should be so rigid," Mr. Hughes' report said, "that it would be impossible for most of these people to enter the United States." Particular reference was made to undesirable classes from Balkan cities, Armenia, Russia and Georgia.

The report said 606,292 passport visas were granted by American consuls in Europe for the year 1920, reflecting a stimulated desire in most European countries to emigrate to America before anti-immigration laws were passed. The principal restraining influence was said to be lack of funds to depreciated currency values.

"The director general of police of Roumania," the report said, "has issued an order excusing all Jews from military service and permitting their discharge from the army if they desire to emigrate to America.

In Roumania 1,500 persons were awaiting examination for permission to come to the United States, it was said, while "tremendous pressure" for passage was reported by officials in Poland, where 35,000 awaited

ber of cars in operation this year, will run the figures beyond the two million mark. The schedule this year is as follows: 24 h.p. or less, \$12.50; over 24 and less than 30 h.p., \$20; over 30 and less than 35 h.p., \$30; over 35 h.p., \$40.

DULA'S ADITORIAL A HEALTHY SIGN

I got the Word in Lenoir last Saturday that there was to be a Straight Democratic and a straight Republican ticket before the Voters in Lenoir, N. C., this Election. This is as it should be.

I have opposed the way that the Municipal officers have been selected in the past. Just a few men going up to the Court House and having a pre arranged printed ticket and putting it through by steam Roller methods and then saying, Vote it as Printed, it was the Voice of the People. Stand by your nominees. This old way that Lenoir, N. C., has been going along does not give the Great majority of the people who do not care to attend caucuses and mass meetings any choice in the election of the town officials.

Put up two sets of men. Put up progressive men who will do something for the town. Then vote for them on their records and platforms. Then some of the Mossy Backs in town will be surprised.

third class accommodations. Letts and Lithuanians leaving the Baltic states, Mr. Hughes said, were largely people from the slums, the vast majority of them "Jews of an undesirable type."

In the Russian Caucasus "it may be accepted as nearly literally true," Mr. Hughes said, "that every Armenian family which has enough money to get away or is not impregnated with bolshevism will ultimately endeavor to emigrate to America. Russians and Georgians are likely more and more to emigrate to the same haven."

"The great bulk of emigrants to the United States from this district are highly undesirable as material for future American citizens."

The report said 5,000 Armenians and 20,000 Syrians were awaiting passage from Bagdad and that, despite difficulties of emigration from Germany, the number desiring to come from that country had doubled in the last year, compared to any similar period since the war ended.

Senator Jones, Republican, Washington, introduced an amendment to the immigration bill in the Senate which would compel all immigrants to the United States to take passage only on vessels flying the American flag.

THE WAY By James Monroe Downum If you would always in the struggle stand the test, And in the bitter contest be ever first, Move forward, looking eager for the good, the best, But, not despairing, be still ready for the worst.

When sunshine's sweet and happy days are passing by, And every morn they come to you with smiles to greet, Look forward, then, with ever keenly watchful eye, Knowing that somewhere out there you the storms must meet.

When all around is only luring, smooth and bright, And hindering objects there are none to block your way, Be sure that some time set of sun will bring the night, And rougher paths will cause a yearning for the day.

Just so, for every cloud that lowers o'er thy path Somewhere there is a star to lighten up the way; And, too, when all things seem to threaten only wrath, There is for faithful souls a safe and constant stay.

Citizens Mass Meeting

Following the usual custom, a mass meeting of the Citizens of Lenoir is called for Friday night, April 2th, at 8 o'clock in the Court House, for the purpose of nominating a Mayor and seven Commissioners.

A new registration has been ordered by the Board; however this does not apply to those who registered for the Bond election, as their names will be transferred. Those who did not register for the School Bond election must register before they can vote in the Town election. The Registration books are in the hands of the Mayor in his office and will be open until Saturday night.
