

OUR LETTER BOX

RUFUS

Yes, of course we wanted to finish the cultivation of our corn, finish harvesting the wheat straw, cut the oats we are needing for feed, break a few acres and sow some peas and soja beans, plant some corn for late roasting ears, work out the garden, and do a few other odd jobs before the wetting rain, but it caught us up just this way last Sunday evening, and now the ground is good and wet. A pore man sees a lot of pleasure. It was Mr. L. H. Moore who motored out so early Sunday morning, June 12th, instead of D. R., as stated in last week's items. We don't like to give D. credit for things he don't do; hence the correction. Did you ever hear of a religious frolic? We've just been reading about one.

Mrs. Lucy Laxton is visiting her people on Mulberry. Those who went out Sunday morning for a pleasant day's ride no doubt found their chains very useful on their return. The worms have been driven down at last by the hot sun, and the corn they left looks more hopeful. We have many desires, but few expectations.

The folks were all come from home one Sunday recently, and a few came and caught the biggest chicken he could find, and left a little note where it could be seen which read like this: "Dear Mr. — I got a one chicken and if hit aint the right un I'll bring him back and git an other." As he got only one the owner never tried to track him up.

Wheat this was not harvested before the storm here last Sunday evening is in bad shape to say it is very sorry, but we are going to mend what little there is.

Some of our thermometers registered 94 in the shade here last week. It was no trouble to get, twenty years ago, a boy in his room who could handle a thermometer, but they are so few now as to be hard to find. If you know of any one, please tell him it has never been better. It discusses the topics and news, too.

In the death of Daniel Shuford great sorrow came to his parents and brothers and sisters, and they have the sympathy of all the good people of the community.
