### Spring Hope Intelligence.

Rev. Forrest Smith, of Louisville, will deliver the commencement address at the Spring Hope Academy next Friday night.

We think the following, taken from the Goldsboro Argus, so timely that we make it our letter this week. The patrons of THE GRAPHIC will all substantiate what is said about books that slander our beloved Southland.

The following bill was introduced in the lower house of Arkansas legislature last week:

"A bill to be entitled 'An Act to declare the American Book Company a trust and to prohibit said Company from doing business in this state.'

"Be it enacted by the general assembly of the state of Arkansas:

"Section 1. That the American Book Company of Cincinnati, O., and other places in the United States, organized by a coalition of several book companies for the purpose of maintaining high prices on school books and for the purpose of defeating honest competition, is by this act declared a trust, and forbidden to do business within the borders of Arkansas.

"Section 2. After the passage of this act it shall be unlawful for said American Book Company to sell any book, map or chart, or any school apparatus or any other article of merchandise in the state of Arkansas. And any agent of said company or any person acting for them, who shall be guilty of violating the provisions of this act in the state of Arkansas shall be deemed guilty of a misdemeanor and shall be fined in any sum not less than \$100 nor more than \$500 for each and every offense.

"Sec. 3. All laws and parts of laws in conflict herewith are hereby repealed and this act shall take effect and be in force from and after its passage."

Commenting on the above the Argus says:

North Carolina through its accredited commission for State adoption of school books, is soon to pass upon what books our children shall study in our public schools; and the people had this law adopted for the express purpose of getting free from the fangs of the abominable book trust that has fattened upon our people so long, and we hope the book commission will govern itself accordingly.

And especially should the Commission be careful in its selection of Readers and Histories, for it is mainly through these mediums that insidious ideas are calculated in the minds of Southern youth by South hating northern publishers—especially when these publishers are banded in a trust.

Let us keep a close watch upon the histories which are taught in our schools and throw out those which are untruthful or inaccurate the moment we find them. It is better for our children not to be taught history at all rather than to be taught falsehoods for historical facts.

### A Testimonial from Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory of Washington, England. "It was saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." Sold by M. C. Yarboro & Co.

### Planting Everything in Cotton.

A gentleman remarked: Our farmers are planting every available acre in cotton. Ten cent cotton has made them wild on the subject. They frequently pass my gate, in wagons loaded with all kinds of fertilizers singing: "In the Sweet Bye and Bye," but next fall I expect to see them hauling their 5 cent cotton to town singing: "Show Pity Lord, Oh! Lord Forgive." Now, is this not about the size of it?—Washington Messenger.

### What Smoking Costs.

Basing our calculation on revenue returns, we find that the United States pays every year for cigars and cigarettes \$186,500,000, and \$20,000,000 for tobacco smoked in pipes. To this must be added the cost of chewing tobacco, \$50,000,000, bringing the entire tobacco bill the year up to \$256,500,000. The total loss from fires in the United States last year was \$120,000,000, so that tobacco costs more than twice as much as all the fires, great conflagrations included.—Exchange.

### Terms of Magistrates.

Attorney-General Gilmer, having been asked his opinion as to when terms of justices of the peace elected by the legislature of 1895 will expire, holds that the intention of the legislature was for justices appointed to fill vacancies to hold until August of this year, and the three additional justices for every township went out April 1st this year. The decision validates papers and instruments these justices have issued this month.

### Of Interest To Farmers.

As the spring has opened and crops are being planted, insects are again becoming numerous and their ravages will soon begin. We wish to urge farmers not to wait until a crop is ruined, and then write for information, but as soon as an insect enemy is detected, send a specimen to this office so that they may be identified, and remedies suggested. The importance of the work against injurious insects is becoming more and more apparent. Every body is invited to make free use of this office to obtain information regarding insects friends and foes. Franklin Sherman, Jr., Entomologist, N. C. Department of Agriculture, Raleigh, N. C.

Two West Virginia farmers, aged 74 years each, died the other day. They were born on the same day, married sisters on the same day, lived on adjoining farms all their lives, died of the same disease at the same hour. And we wonder if the old gentlemen will spend the hereafter at the same place.

### He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 1-2 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters no rival on earth. Try them M. C. Yarboro & Co., will guarantee satisfaction or refund money. Only 50 cents.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by M. C. Yarboro & Co.

### Caught a Dreadful Cold.

Marion Kooke, manager for T. M. Thompson a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by M. C. Yarboro & Co.
