Lenoir, N. C., March 9.—Mrs. Mary Tuttle died at her home near Lenoir yesterday evening. Her seven living children, among whom were Rev. D. H. Tuttle, of the North Carolina Conference, and Rev. R. M. Tuttle, of the Western Conference, were at her bedside. Mrs. Tuttle was about eighty years old. From childhood she had been a member of the Baptist church, but gladly gave two of her sons to the Methodist ministry.

Greensboro, N. C., March 6.—Greensboro is to have a new national bank with a capital of \$200,000 and officered by practical bankers of capacity and experience. The new bank, which will be known as the Commercial National Bank of Greensboro, will succeed the Greensboro Commercial and Savings Bank. The officers are F. B. Ricks, president; E. L. Stafford, vice-president; F. C. Boyles, cashier. It is rumored that Mr. A. C. Hickerson, formerly of Asheville, who has figured in the movement for the establishment of a million-dollar bank in Charlotte, will be made vice-president.

Louisburg, N. C., March 6.—Maurice Jeans, the son of Atha Jeans, living at Pilot, this county, was today arrested and placed in jail under arrest and bail proceedings instituted yesterday afternoon before Clerk of the Superior Court J. J. Barrow. Young Jeans was arrested several days ago and placed under \$100 bond for his appearance here Saturday to stand trial for the theft of \$8,000 from his father, but new evidence of a circumstantial nature having been discovered he was arrested under the above proceedings and placed in jail and will have to give bond for \$6,000 before he can be released. The hearing is set for the 26th inst.

The Saloon and Business.

Senator Carmack, of Tennessee thus punctures one of the arguments against prohibition: "I consider this talk about Prohibition hurting business conditions and driving labor away as tomfoolery. It will do nothing of the kind. I attribute the present Prohibition wave that is sweeping through the South to the pernicious activity of the saloons in politics. In every State in the South the saloon has demonstrated that it will rule the people if let alone, and the general desire to abolish the saloon resulted. We have prohibition in all but four towns in Tennessee, and I think it but a question of time when the entire State will abolish the saloon."

Our old friend Jack Baines, of near Finch, was a pleasant caller at The Graphic headquarters a few days ago.

Dr. W. P. Simpson paid Enfield a flying visit last Sunday to see his mother, who we regret to learn, is sick.

Mr. A. B. Baines returned Saturday on an extended visit to town along the main line of the A. C. L. in the interest of the business of Baines Bros. & Co.

Miss Lola Griffin has returned from Tampa and other places of interest in Florida. On her return she spent several days in Rocky Mount visiting Miss Emma Farmer.

Mr. E. F. Vester has opened up a first-class cafe where he is prepared to serve meals at all hours. His daily menu is indeed tempting and he is receiving a liberal patronage.

Rev. Mr. Davis, who was for two years pastor of the Methodist Church at this place and who now resides at Lagrange, was in the city last week shaking hands with his many friends who were glad to see him.

Mr. Alfred Edwards, of Westrays, was in town Saturday making a survey and laying off the ground for the erection of the furniture factory of which mention was made in these columns a short while ago.

Mr. Alfred Wheelers, Jr., and Miss Florence Culver, who recently paid the northern markets a visit and where they went to purchase the spring and summer stock of millinery and notions for Mr. B. W. Upchurch, returned home last Sunday. They report a most enjoyable trip.

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Lovellton, S. C. "Its called Electric Bitters, and comes in 50 cent bottles. It breaks up a case of chills or a bilious attack in almost no time, and it puts yellow jaundice clean out of commission. This great tonic medicated and blood purifier gives quick relief to all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at Nashville Drug Co."

Mr. Claude Finch was taken violently ill a few nights ago with an attack of acute indigestion and for some time his condition was considered quite serious. Dr. W. P. Simpson rendered the necessary medical attention and by heroic efforts the patient was restored. Mr. Finch was able to pay Whitakers a visit last Sunday.

Rev. Mr. Owen, of Rocky Mount, preached an interesting sermon at the Pythian Hall last Wednesday evening to a large and appreciative congregation. There is no Episcopal church in this place, however, there are quite a number of members of that faith in our town. There is some talk of erecting a church at this place some time in the future.

When the lights were suddenly shut off on the night of the recent fire, thereby throwing the town in utter darkness, some of our people sustained injuries by colliding into each other and stumbling over boxes etc. Among those who were "done up" were Messrs. G. W. Joyner, Dr. Wm. Edwards, Willie Pierce, A. B. Russell and others. None of the injuries sustained, however, were serious.

First Monday in Nashville seemed to be an interesting day. Several of our townspeople and leading citizens around this place were visitors in that town on that day, among whom we note Messrs. C. C. Piece, A. F. May, T. C. May, J. T. Fulford, B. D. Creekmore, C. T. Sanders, Daniel Cone, Rev. B. E. Stanfield, Joe Strickland, A. R. Griffin, G. W. Joyner, B. E. Morgan and others whose names we are unable to ascertain.

Mr. Cuthrell, of Enfield, and who represents the Carey Safe Co., of Buffalo, N. Y., was here last Wednesday to witness the opening of Mr. J. J. Spivey's safe which was of the Carey make and which went through the recent fire. The safe stood the fire as well as expected and, upon opening the same the contents were found to be in a well preserved condition. The safe contained many valuable papers belonging to Mr. Spivey and other citizens.

Mr. A. B. Russell, the efficient operator here, has received notice that he will be sent to Battleboro at once to take charge of the railroad and telegraph office at that place. We learn that the position at Battleboro will pay Mr. Russell more than he receives at this place. His many friends here will regret to see him leave this place and it is hoped the railroad authorities will re-consider the matter and that Mr. Russell will remain in this place, where he is so nicely situated. Despite the continually increasing business of the local office Mr. Russell and his excellent wife conduct the affairs with credit to the company and to themselves.

Wood Alcohol in Whiskey.

A recent death in this city calls to mind two other deaths from a similar cause—the drinking of whiskey which has been adulterated with the deadly poison, wood alcohol. A citizen of a town, some little distance south of here, died last night from the effects of wood alcohol drinking, and a year ago a white man from Manchester died in his cart in Fayetteville from the same cause.

The physician who attended this latest victim, and deceased's brother told an Observer reporter to-day that it was a well known fact that much of the so-called corn whiskey, which is adulterated with wood alcohol which can be purchased at a price cheaper than the cheapest corn whiskey. This is indeed a fearful revelation. Is there not some way to prevent this awful crime?—Fayetteville Observer.

LATE FOREIGN NEWS

What The Dispatches Tell of Doings In The Various States.

Happenings Told in Condensed Paragraphs Giving a Brief Review of What Has Transpired During The Past Week or More.

Columbia, S. C., March 6.—Frank B. Gary, of Abbeville, was today elected to succeed Asbury C. Lattimer in the United States Senate. Gary was elected on the fourth ballot, receiving 81 votes. The legislature convened in special session last Tuesday for the purpose of electing Lattimer's successor, but until late this afternoon a dead lock had prevailed.

Tokio, March 6.—That the dispute between China and Japan over the recent steamship seizure by China has assumed a critical stage is indicated by the announcement today that the viceroy of Canton has resigned. China is determined not to accede to the Japanese demands and Japan will probably attempt to make her do so. The government is urged by the newspapers not to accept any compromise whatever. The encroachments by Japan on Chinese rights have on the other hand, stirred the Chinese government to deep anger and resentment, and there is plenty of war talk.

New York, March 6.—While a fire raged on the fourth floor of the five-story public school building, 109th street, between Amsterdam avenue and Broadway today, 2,000 pupils marched from the building singing "America" under the leadership of their teachers. The children were engaged in their morning singing exercises, when the fire gong rang, and they continued to sing as they marched out of the building. There was no sign of a panic and a few minutes after the first alarm was sounded all the children were assembled in the school yard waiting for the word of dismissal.

Ludicrous Reasoning.

It makes a mule laugh to hear some people give a reason for not favoring the State prohibition bill to be voted on May 26th. One is that a farmer is deprived of the rightful use of the products of his orchard, viz: to make and sell cider and brandy. As a matter of fact, the law, if it becomes operative gives the very largest privileges to cider makers, that is the manufacturer can sell it in any quantity and anywhere. Read the bill and see for your poor little prejudiced and bias self. About brandy, who of you has got a still and if you are likely to suffer so much harm, why have you cut down and destroyed most of your orchards years ago and sworn to the whole public that because of taxes, etc. it was no longer profitable or worth the time and money to manufacture it. There are here and there a very few brandy stills. We venture to say that not ten men in Nash county will be adversely affected by their removal. Does it appeal to a fair minded man that in order to remove from our county an influence that either directly or indirectly is injuriously affecting every human being in it we ought to preserve a few old brandy stills that the owners themselves have been declaring to us all along is of no profit to them and we know is of none to others? Come out and answer.

Some people make the mistake of prying only for what they want instead of asking for what they need.

Do Not Crowd the Season.

The first warm days bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It is pleasant to take. Children like it. For sale by Nashville Drug Co.
