THURSDAY, APRIL 6th, 1911

For several years past there has been an increasing sentiment favoring some measure which would bring that relief so much desired by the progressive citizens of Nash county from the terrors of bad roads and the many difficulties experienced in trying to maintain roads under the old unsatisfactory free-labor system; a system that proved a miserable failure wherever tried and which has been discarded by many of the most progressive counties of the State. So decided has been this increase in sentiment favoring good roads that demands were made upon the last session of the legislature for the passage of a law which would bring about a change. The demands for such a law have been met, and it is now up to the good roads advocates in the several townships to show their faith by their works. The Graphic this week publishes a reasonably comprehensive digest of the road law passed by the law-makers, and which should be read with interest by the citizens of those townships which will naturally be effected by the adoption of the plan afforded by reason of the provisions of the act. Elsewhere in The Graphic will be seen the notices issued by the Board of County Commissioners calling elections in the various townships, wherein is to be settled this much-discussed and all-important question. The voters should carefully read these notices, especially those applying to their respective townships. Especially should they remember the fact that practically a new registration is necessary in every township, as the provisions of the act seemingly exempts those voters who registered and voted in the election on Nov. 6th, 1908.

Those who know ex-Judge Samuel F. Austin are well aware of the fact that he is not the man to entertain animosity or appear disgruntled and sore because of the fact that he did not receive reappointment to the position as recorder for Nash county. In an interview with The Graphic representative Judge Austin expressed himself as being highly appreciative of the confidence manifested in him by his many friends, especially those who were solicitous for his re-appointment. He has held the office for two years, during which time he has served the county with credit and with honor to himself. There is reason to believe that his successor, Judge W. L. Thorpe, will ably sustain the record made by Mr. Austin and will discharge the duties of the office without fear or impartiality.

The appointment of Mr. Leon T. Vaughan, one of Nashville's most prominent lawyers, as prosecuting attorney in the Recorder Court will meet the hearty approval and be good news to his many friends throughout the county. No young man who has ever cast his lot among the people of Nash has more rapidly gained the confidence and esteem of the people generally than has Mr. Vaughan. He has met with that decided success here in the practice of his profession and has ever been alive to the interests of his clients and every cause he believed to be

Mr. Gravelly's Letter.

Editor The Graphic:—

Having received recently numerous inquiries as to what I thought about the prices of tobacco next fall I ask that you permit me to reply through the columns of your paper. For a number of years I have urged the tobacco growers to adopt the method of letting the demand come before making the tobacco instead of making the tobacco and waiting for the demand. While I do not pretend to credit myself with the bringing about of that condition, yet we have it today, and I congratulate the tobacco farmers of Eastern North Carolina on being surrounded by a most encouraging situation. I have been a hard student of tobacco in all of its forms for the past twenty-five years and I am frank to say that a more promising condition never prevailed, so far as my recollection goes. It is the first time, I have felt justified in advising tobacco growers to plant tobacco. My reasons for doing so at this time are based not upon hope but upon facts. In 1908 there was no more tobacco raised in North Carolina than the world needed. In 1909 there was a smaller shortage, while the crop of 1910 will show at least thirty-five million pounds less than the trade requires, which makes the demand at this time greater than the supply, a condition that has never failed to cause tobacco to bring profitable prices to the producer.

In connection with this shortage in bright tobacco it will doubtless be of interest to all and possibly surprising to many to know that the increase in consumption of cigarettes (80 per cent of our tobacco is used for the making of cigarettes in some form or other) during the year of 1910, according to the government report was one billion, eight hundred million over the previous year. With this rate of increase it will be a hard matter for the supply to exceed the demand during the season of 1911 and 1912.

While I believe the production of bright tobacco in Eastern Carolina will be attended with less risk this season than for twenty years past and I hope to see those who are prepared to handle the weed, plant as much as they can properly care for, yet I don't wish to be understood as advocating the planting of tobacco at the expense of necessities of life. Raise home supplies and then diversify your money crops. This article is prompted by the fact that a number of farmers who are prepared to handle tobacco and have suitable lands for growing the weed appeared disposed to abandon its cultivation entirely, an act, which to me, seems unwise at this time. Those who have sown the seed should reap the harvest. Planting everything but tobacco this year and nothing but tobacco next year, will not prove profitable to those who do it. I believe an opportunity to make money raising tobacco presents itself this year. I therefore, urge you to divide your crop between cotton and tobacco after a sufficient crop for home supplies has been laid out.

11 Kings 6:18-23—April 9
 "He shall give his angels charge over thee to keep thee in all thy ways."—Psalm 91:11.

WAR was declared by Syria against Israel the invaders sought to gain an entrance into Israel's army in the mountain passes, but God through the Prophet Elisha forewarned the Israelites. When this had happened several times the Syrian king concluded that there were traitors amongst his counselors, but was answered, "Not the Prophet Elisha surely warns Israel's king of anything that you plan secretly."

Learning that the Prophet was living at Dothan, near the Syrian border, the king sent a detachment of soldiers to capture him. They came by night. Elisha's servant, arising early, saw that the little city was surrounded. He ran to his master in fear, but the latter, unperturbed, answered, "Fear not; for they that are with us are more than they that are with them. These words sounded strangely untrue to the servant, until the Prophet prayed for him. The angels of the Lord, which revealed a vision of angels, chariots and horses, with the appearance of fire.

The lesson to us is that whoever are God's servants, and wherever they may be, Divine power, like a mighty army, surrounds them. Modern inventions and discoveries are more and more revealing to us secrets of nature and hinting at far more beyond. Whoever has knowledge of wireless telegraphy, X-rays, radium, etc., can readily believe that the Almighty God may have thousands of agencies and powers invisible to men whereby he can work all things according as he pleases.

"The Angel of the Lord Encampeth Round About Them That Fear Him and Delivereth Them."

Angels are beings of a grade a little higher than man—beings with spirit bodies instead of flesh bodies. "Thou madest man a little lower than the angels." The Scriptures declare that the angels are sent forth to minister to or serve all those who are heirs of salvation. They encamp around about God's servants in the sense that Divine agency and power are everywhere and ready at any instant to be exercised as much as need be for the accomplishment of God's will. The same God who willed that Elisha should be before Jehoshaphat arranged that Elisha should be specially protected. But we are to remember that only those who are in covenant relationship with God are under this special watch-care and protection.

We are to remember also that there are fallen angels, called "wicked spirits," and that these are on the alert to entrap and ensnare humanity through spirit mediums, spirit rappings, tipplings, clairvoyants, outboards, etc. God's people are warned against these, and they in turn should warn the world of the great danger resulting from any association with these fallen angels, who misrepresent themselves to be our dead friends.

Many are being misled by these evil spirits. They have introduced various false doctrines and continually seek to entrap the human will, and, if possible, to gain control over it—through obsession. Curiosity is one of the main baits to the hook of spiritism.

Spiritists, including mediums, are being deceived. They think that they converse with the dead. They will indeed acknowledge that there are "wicked spirits," "lying spirits," as the Bible says; but they do not acknowledge that they are all wicked. The fact is that they have only partially realized the depth of Satan's power and deceit.

Comparatively Few Have Yet Learned of God's Love

Only God's consecrated people have yet learned of his love, and they very imperfectly. The tactics of Satan and his demon hosts for centuries has been to blind the whole world and, as much as possible, God's people respecting his true character. By misrepresentations of the Scriptures and some interpolations and some mistranslations they have succeeded to a wonderful degree in putting light for darkness and darkness for light. This is shown in the creeds of all denominations—some in a greater and some in a less degree.

A century or more ago, when the creeds were believed more fully than today, the effect was terribly demoralizing. Good men and women under the delusions of those creeds tortured one another, often to death, with thumb-screws, racks, burning-irons, the stake, etc. Their hearts were not so much worse, perhaps, than ours; but their heads were more deluded. Believing thoroughly in the doctrine of eternal torment, etc., they sought to copy this misconception of the Divine character and dealing.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. "For sale by all dealers."

Attacks School Principal.

A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga., is thus told by him: "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them Only 50c at Nashville Drug Co.

A SUCCESSFUL MERCHANT!

Because He Was a Depositor Of The Savings Bank

On October 4th, 1904, a young man walked into the Savings Bank at Rocky Mount, N. C., and said to the Cashier, "I wish to make a small deposit, to which I expect to add from time to time, for a special purpose. He deposited exactly \$13, which amount began to draw Four Per Cent interest from the first day of October, 1904. True to his word, he added to his \$13.00 a little every month, and each interest quarter his interest was a little more, for he received compounded interest. On Jan. 2, 1907, he came into the bank and drew out his balance, which amounted to \$689.30 and went into business. Today the young man is one of our leading, prosperous and most up-to-date merchants of Rocky Mount. He did it and others can do it. We welcome small accounts.
