The Reason of Lawlessness.

One of the causes for lawlessnes -(particularly such as gamblin illegal in liquor and dope, keeping a bawdy house, and vagrancy)-is use even when a person guilty of such a crime is convicted, the punment is so light or if not guilty rson manages to escape the penalty. As a rule for any of those crimes amounts virtually to a license fee to be paid when caught. Of course there are a few en when a fine is real punishment, they are rare, and im tence on the roads is the only penalty that ends such violations of he law. Treatment of Jurors.

There are gratifying indications that courts are beginning to recognize the absurdity of some ideas that custom has grafted on our jury system. For instance, there is that ridiculous assumption that a jury must be kept together and absolutely secluded in order that a criminal may obtain a fair trial. Rigid enforcement of this rule during pro-

tracted trials has resulted in such hardships that it is becoming almost mpossible to obtain competent juries

in the more important cases, Recent-ly many intelligent judges have taken the responsibility of ordering the rule relaxed in order that jun might be treated with ordinary humanity. If the interests of funtice have suffered by reason of their action, the fact has not been appar-ent. This policy now has been indorsed by the Supreme Court of the United Stated, which has declar-

ed that is it not reversible error in a criminal trial to permit the jurors to separate from each other and to read newspapers. Application of a little common sense ought to make

it possible for intelligent citizens to serve on juries without being treated as convicts,-Oxford Banner

School Houses in 3,453 Days.

The biggest thing that has happened in North Carolina is this century is the fact that every one of the working days that the sun has gone down during the past ten years its rays have fallen on a new school house.
