THE FATNESS OF HEALTH.

Samose Fills Out the Curves and Makes Thin People Fat.

Perfect health and good solid beautiful flesh can only come through the use of Samose, the remarkable flesh forming food.

This makes the thin and scrawny, plump and robust; it mixes with the food so that all of the elements that make solid bone, firm muscle and good flesh are thoroughly assimilated and retained in the system.

Samose is not a drug or a stimulant; it is a scientific flesh forming food that restores thin people to a normal condition of good healthy flesh.

These statements are confirmed by Gibson Drug Store who offer to refund the money to anyone buying and using Samose who does not gain in weight as promised.
