In the development of North Carolina's industries, the North Carolina College of Agriculture and Mechanic Arts is taking a foremost part. Its students are giving their lives to improving our farming, our trucking, our dairying and stock raising. They are rapidly making their way into our factories, our electric power-houses, and our shops. They are helping to build our roads, our bridges, and our railroads. Indeed, they are just the men needed at this stage in the State's growth. We are glad to note that more young men than ever before are seeking, through this well-equipped institution, a place in our industrial progress. We call attention to the advertisement in this issue.

Four dental offices in Salisbury, owned by Drs. J. D. Carlton, L. S. Fox, J. M. Neal and S. L. Purvis, were entered and robbed by unknown persons last Sunday night. Indictment of Southern Mills.
Charlotte News.

In speaking of the government investigation of the hull clique of the New York cotton exchange, of the indictments found against certain large operators and of certain large cotton mills in the South who are named in the indictments as co-conspirators an Augusta cotton man says:

"There were certain cotton men and large cotton mills in the south that considered the price of cotton in New York last May, relatively the cheapest that could be bought in America."

"As prudent business men, they bought New York contracts and demanded the delivery of cotton. Speculators sold what they didn't have and were forced to deliver cotton at a loss to themselves. Government investigation, whether or not so intended, would have under ordinary circumstances, seriously depressed the prices of the South's greatest commodity."

J. A. Smith Has No Case.
The Washington correspondent of today's News and Observer has the following:

The Republican Elections Committee number two, of the house, decided by unanimous vote today that the contest of J. A. Smith for the seat in the North Congressional district is without any merit whatever, and declared Yates Webb, entitled to membership in the House. There never has been any doubt as to the outcome of the result. The only source of gratification is that Republicans as well as Democrats, member of the committee, decided that Mr. Smith has no case. The painful thing about the contest is that the committee has made no recommendation to give Mr. Smith the usual two thousand dollars allowed contesting candidates for congressional seats. Smith was represented by ex-Senator John M. Thurston, of Nebraska, before the committee, and he may have influence enough to get this life preserver for the contesting member at the next session of Congress. If he fails, it will be awful Mabel for a certain gentleman from the ninth district and another once resident in Nebraska, who is practicing law in the District of Columbia at the present.

CAUSE OF ECZEMA EXPLAINED.

After years of debate medical authorities are now agreed that Eczema and other skin diseases are not seated in the blood, but are caused by myriads of the microscopic animals gnawing the flesh just below the epidermis. The patient is perfectly healthy, it is only the skin that is diseased.

Hence, scientists are now agreed that you must cure the skin through the skin. The medicine must be in liquid form in order to penetrate properly. And we can say with confidence that we have the true remedy for eczema in our store.

The instant you wash with this soothing liquid you will find the itch relieved. We positively assure you of this. Will you try a bottle (at only 25c), on our recommendation? Ask for D. D. D. Prescription. Gibson Drug Store.

W. O. W. NOTICE.
